Anglican Ordination Rites: The Berkeley Statement - To ...

Description. This Study presents Anglican ordination rites of the 1970s and 1980s, and the first two chapters analyze and compare their respective contents and character. There are ten different Churches and Provinces of the Anglican Communion (and the Churches of North and South India) thus represented, and there is also a note on the situation, as far as I know it, in the other twenty or so Churches.

This special hybrid volume provides the ordination liturgies of the Church of England from both The Book of Common Prayer and Common Worship, alongside a study guide for these services. It is intended to facilitate study of the texts by all who are interested in what the Church of England teaches about ordination, and especially by those who are themselves preparing to be ordained. It also serves as a resource for ecumenical dialogue about ministry in the Church. The first part presents the authorised ordination services, annotated with references to Scripture and to the Canons of the Church of England. The second part explains the thinking behind the services and offers a practical guide to planning ordinations. It includes: Introduction by the House of BishopsThe Common Worship Ordination Services (for Deacons, Priests and Bishops)The Ordinal (1662)A brief history of ordination ritesA commentary by the Liturgical CommissionCelebrating ordinations - a practical guide

There are approximately 10,000 Readers in the Church of England, many serving in parishes, taking services and preaching as well as doing pastoral work, while others engage in a variety of other roles. In recent years many dioceses have put a strong emphasis on accredited lay ministry alongside the ministry of clergy. 2016 is the 150th anniversary of Reader Ministry in the Church of England, and there will be celebrations around this. This book, written by two experienced teachers working with Readers and supporting Reader ministry, offers a fresh look at Reader ministry and thus a resource for Readers to consider their own specific ministry as well as for those exploring Reader ministry as a possible vocation.

The Oxford Guide to the Book of Common Prayer is the first comprehensive guide to the history and usage of the original Book of Common Prayer and its variations. Expert contributors from around the world and from every major denomination offer an unparalleled view of The Book of Common Prayer and its influence. The Oxford Guide to Common Prayer is more than simply a history; it describes how Anglican churches at all points of the compass have developed their own Prayer Books and adapted the time-honored Anglican liturgies to their diverse local cultures. The Guide examines how the same texts - Daily Prayers, the Eucharist, Marriage and Funerals, and many others - in dozens of editions now in use throughout the world, both resemble and differ from one another. A brief look at "electronic Prayer Books" also offers a unique and exciting modern perspective. The Oxford Guide to the Book of Common Prayer offers a fascinating journey through the history and development of a classic of world literature from its origins in the 16th century to the modern day. Oxford is pleased to offer The Book of Common Prayer in a variety of formats and prices to match readers' needs and budgets - perfect for study or gift-giving. Visit our website to order your copy today. \* A comprehensive survey of the rich history of the original Book of Common Prayer and all of its varied descendants. \* Explains, characterizes, and illustrates the dozens of Prayer Book versions in current use throughout the world. \* Lays out a path that will enable any reader, Anglican or not, to learn why the BCP is a classic of liturgy and literature.

The celebration of the liturgy is central to the life of faith and also for the self-understanding of the various churches in the East and West. An amazing convergence of Christian denominations has taken place in the area of liturgy and liturgical studies since the Second Vatican Council, entering also into the practice of liturgical celebration. In this collection - with contributions from a symposium held in Vienna in November 2007 - internationally recognized scholars from various Christian denominations present the ecumenical contributions and the Jewish roots of the Christian liturgy. [PLEASE NOTE: The individual essays in this volume are written in various languages. The book contains ten essays in English, eight in German, and two in French.] (Series: Austrian Studies of Liturgy and Sacramental Theology / Österreichische Studien zur Liturgiewissenschaft und Sakramententheologie - Vol. 6)

" Among the symbols with which the liturgy deals, none is more important than this assembly of believers. " This claim made in the 1970s forces the local church to consider those within its congregation, and recognise the gifts and challenges of difference within the church community. In "This Assembly of Believers" Bryan Cones seeks to take seriously the pastoral context of a congregation, recognising the physical ability, gender and sexuality of those who make up the congregation. Starting each chapter with their lived experience, Cones poses important questions of the liturgy in light of these experiences before realigning the liturgy to demonstrate the positive theological significance of the marginalised within the congregation.

A contribution to the end of the Church knowing itself as the body of Christ. Irving articulates a theology of the Church as that which participates in all that Jesus is in his vicarious humanity by the power of the Spirit. This is developed through a dialogical (or covenantal) frame that has its focal point in Christ, in whom the faithful love of God toward creation and the faithful love of creation toward God is actualized. The Church as the body of Christ participates in the mediatorial work of Jesus Christ. Each chapter explores a different element of this participatory ecclesiology. This book offers a constructive ecclesiology, built from the ground up on the foundation of a dialogical perspective, which has participation in Christ as its controlling center. This foundation provides the basis upon which an exhilarating vision of the Church can be built, to encourage Christians to cherish the Church as the body of Christ which participates in the triune communion through being included into the Son by the power of the Spirit and comes to reflect the triune God in its own structures.

Anglicanism arguably originated in 1534 when Parliament passed the Act of Supremacy, which transferred papal power over the Church of England to the king. Today, approximately 550 dioceses are located around the world, not only in England, but also everywhere that the British Empire's area of influence extended. With an estimated total membership of about 75 million, Anglicanism is one of the largest and most varied Christian denominations. With such a long history and widespread flock, it is not easy to keep track of the variations of a religious community that has not ceased adapting since its inception. Hundreds of entries on significant persons and events, concepts and institutions, rituals and liturgy, and national communities, make this an invaluable reference for religious historians, theologians, and researchers. Also included are an introduction, a chronology that traces the church's evolution over time, and a bibliography.

Colin Buchanan was asked to join the Liturgical Commission of the Church of England in 1964, to bring in evangelical convictions. He has been at the centre of liturgical developments for over 40 years, and has thus lived and contributed through a time in the Church of England when first the original experiments service, then the Alternative Service Book 1980, and many years later, Common Worship, were being created and negotiated. This book reveals some of the characters and issues involved in the revisions process - from Cranmer to the present day. At once scholarly and entertaining, An Evangelical Among the Anglican Liturgists reveals not only the long-running processes of Anglican liturgical revision, but also gives a picture of one man's sustained involvement in it.

Reflecting the range of their honorand's interests, the essays in Ritual, Text and Law provide a stimulating and panoramic exploration of the interrelated fields of liturgy and canon law in the Middle Ages, chiefly through the scrutiny of texts and their transmission. Roger Reynolds' scholarly work has not only considered the relations between law and liturgy, but has also focused on liturgical practice and the evolution of rituals, paleography and the often complicated relationships between canonical collections, in particular the southern Italian Collection in Five Books. Due in large part to Reynolds' research, the fields of medieval canon law and liturgy are now recognized as fundamental elements of medieval religious and intellectual history that shed light on medieval Christian belief and practice. The studies are grouped thematically under the headings of 'Ritual' and 'Text and Law'. Each section has an introduction by the editors, in which they survey recent developments in the study of medieval canon law and liturgy with reference to Reynolds's own research, provide historical context for the individual studies, and draw attention to the ways in which the studies reflect current concerns. Individually, the contributors offer new viewpoints on key issues and questions relating to medieval religious, cultural and intellectual history, particularly of the period c.900-1200, and especially the Italian peninsula. Collectively they illuminate the intersection of medieval Christianity and its rituals, as well as the relationship of the secular and the sacred as transmitted in liturgico-canonical texts from the time of the early church to the 14th century.
