Constantine's Sword: The Church and the Jews: A History is a book by James Carroll, a former priest, which documents the role of the Roman Catholic Church in the long European history of antisemitism. The primary source of anti-Jewish violence is the perennial obsession with converting the Jews to Christianity; an event which some theologians believed would usher in the Second Coming.

Constantine's Sword - Wikipedia

James Carroll's Constantine's Sword, or Constantine's Sword, is a 2007 historical documentary film on the relationship between the Catholic Church and Jews. Constantine's Sword: The Church and the Jews by James Carroll

The BEST: Constantine's Sword: The Church and the Jews, a History Author: James Carroll by Yitzchak Blau. Summary: In this impressively honest volume, a former Catholic priest surveys the historical role the Catholic Church has played in fostering anti-Semitism. Carroll highlights particular turning points where the Church could have gone in other directions but ultimately made choices that turned dangerous for Jewry.

Constantine 39 S Sword - shop.kawaiilabotokyo.com

Constantine's Sword is an informative book for those who are interested in this period of Roman history. Constantine, it is alleged, became a Christian on his deathbed and his belief in this new kind of thinking spread across the world and put Christianity at the forefront of religious belief.

Examines the two-thousand-year relationship between Christianity and Judaism, examining the long entrenched tradition of anti-Semitism that culminated in the Church's failure to protest the Holocaust during World War II.

The life of Moshe ben Maimon (Maimonides) remains a mystery to many within evangelical Christianity. However, he is lauded as a second Moses by many within modern Judaism. Does he deserve that title? Maimonides's *via negativa* created a rationale for rejecting the messiahship claims of Jesus in Rabbinic Judaism. Therefore, this book seeks to illustrate that

Maimonides, in his desire to create an anti-Christian apologetic regarding the incarnation, fashioned a Judaism that does not reflect the truths of the Tanakh (Old Testament) and developed a Judaism that was untenable for the Jewish people of the twenty-first century. Many Jewish people today are turning in a thousand and one different directions for spiritual answers, but not in the only way that will offer the way to God: Jesus of Nazareth (John 14:6). This work examines the history of Maimonides, his teachings, and an apologetic approach to bring the gospel back to the Jewish people (Rom 1:16).

Biography of the medieval Mediterranean's most cross-culturally significant sculptural monument, the tallest in the pre-modern world.

Research into the emotions is beginning to gain momentum in Anglo-Saxon studies. In order to integrate early medieval Britain into the wider scholarly research into the history of emotions (a major theme in other fields and a key field in interdisciplinary studies), this volume brings together established scholars, who have already made significant contributions to the study of Anglo-Saxon mental and emotional life, with younger scholars. The volume presents a tight focus - on emotion (rather than psychological life more generally), on Anglo-Saxon England and on language and literature - with contrasting approaches that will open up debate. The volume considers a range of methodologies and theoretical perspectives, examines the interplay of emotion and textuality, explores how emotion is conveyed through gesture, interrogates emotions in religious devotional literature, and considers the place of emotion in heroic culture. Each chapter asks questions about what is culturally distinctive about emotion in Anglo-Saxon England and what interpretative moves have to be made to read emotion in Old English texts, as well as considering how ideas about and representations of emotion might relate to lived experience. Taken together the essays in this collection indicate the current state of the field and preview important work to come. By exploring methodologies and materials for the study of Anglo-Saxon emotions, particularly focusing on Old English language and literature, it will both stimulate further study within the discipline and make a distinctive contribution to the wider interdisciplinary conversation about emotions.

The continued influence and significance of the legend of Arthur are demonstrated by the articles collected in this volume.
