2.2 Refer to the magnetic declination found on the topographic map and answer the questions that follow . 2.2.1 Calculate the magnetic declination of Queenstown for 2015 . Show ALL calculations. Marks WILL be awarded for calculations . Difference in years:

The book encompasses a wide range of topics on practical geography taught to the B.A./B.Sc. students of Indian universities. Numerous examples and diagrams have been included in the text with the sole aim of enabling the students to have a comprehensive grasp of the subject. Attempt has also been made to present a well-balanced treatment of each topic. Topics like measurement of ground areas from maps, determination of class-interval for choropleth maps, representation of agricultural, industrial and transport data, choice of map projections, interpretation of topo-sheets, etc., have been included in this book and discussed in detail. Books treating various aspects of practical geography need regular up-dates. Therefore, the latest available material has been used to update this edition. Guidance of learned college and university teachers has enabled the author to present the subject-matter clearly and accurately. It is hoped that in addition to developing a keen interest for practical geography, it will form the basis for a more advanced study of the subject among the students.

"5 solved Question papers and 5 self-assessments papers and 5 self-assessment papers with hints covering important concepts from an examination perspective.
