La non completa attuazione della Costituzione è il punto di partenza per consolidare la consapevolezza che il territorio costituisce un fondamentale bene comune. Per far ciò non bisogna limitarsi agli aspetti esclusivamente tecnici e giuridici del problema, ma integrare diversi e distanti contenuti e problematiche per realizzare strumenti più adatti per un efficace governo del territorio. Ne conseguono due esigenze da affrontare urgentemente: la prima indirizzata alla costruzione di nuovi strumenti di governo del territorio, la seconda legata alla professione del

pianificatore in modo da poter ridefinire l'attuale piano (fondato sulle quantità dello sviluppo edilizio), per costruire un percorso in grado di integrarle con la qualità degli interventi, fondato sulla condivisione delle scelte e sulla definizione di strumenti in grado di supportare tale percorso. Il volume, analizzando i limiti e le esigenze della situazione attuale, avanza la proposta - anche sotto l'aspetto tecnico - di un nuovo strumento di governance che sappia rispondere adeguatamente alle esigenze di una società in continua e sempre più rapida evoluzione per effetto di una competizione su scala globale.

A serial killer haunts the city streets, a stalker of

isolated women who leaves a Santa Claus hat at the scene of his crimes. Pavel, a Russian émigré, assists the police investigation as a sketch artist. But Pavel's true calling is as a tattoo artist, and the so-called Bad Santa killings conjure up memories of the nightmarish world in which he learned his craft: a Russian prison camp that shattered his childhood and destroyed his family. Shifting between the living hell of a 1940s Siberian gulag and the crime-ridden chaos of New York City during the 1970s, this graphic novel's stunning artwork provides an atmospheric backdrop to its tale of corruption, murder, and revenge. Author Jerome Charyn was acclaimed by The New York Review of Books as "a fearless writer. Brave and

brazen." This edition of Little Tulip, which was originally published in French, features Charyn's new English translation. Award-winning illustrator François Boucq also collaborated with Charyn on the acclaimed graphic novels *The Magician's Wife* and *Billy Budd*, *KGB*. Suggested for mature readers.

As Gotham City undergoes a massive architectural boom, a series of unexplained construction accidents begin to cause casualties across the city and it is up to Batman to discover who is behind the string of catastrophes.

Alaxis Press' The Obscure Cities series brings the award winning graphic novels to readers in English with an all-new translation! Giovanni Batista is a third-class maintainer of the Tower. His section is deteriorating more and more by the day and he has not heard from any of his inspectors or fellow maintainers in months. Running out of supplies and having filed multiple written complaints, he decides to descend to the base. Using a chute of his own making, he crash lands and is found by Elias Aureolus Palingenius and the lovely Milena. He finds a world full of books and people he never knew of, but the mystery of why the Tower was built still nags at Giovanni so he and Milena decide to climb to the top

to find answers. The Tower, presented in this new edition, is a fabulous story for the exploration of a deliquescent world, an epic fable to the dimensions of world-building, a fantastic escape full of paradoxes, simulacra, and pretense. Magnificent mastery, invention, and poetry, this is undoubtedly one of the most beautiful jewels of the exciting saga of the OBSCURE CITIES.

In Paco Roca's intensely intimate and international award-winning graphic novel, *The House*, three adult siblings return to their family's quaint vacation home a year after their father's death. They each bring their respective wives, husbands, and children there with

the intention to clean up the residence and put it on the market, but as garbage is hauled off and dust is wiped away, decades-old resentments quickly fill the vacant home. Through flashbacks into each sibling's memories — the fig trees they grew up climbing, the pergola they never got around to build, the final visits to the hospital — Roca gives us a glimpse into domestic moments of joy, guilt, and disappointment while asking what happens to brothers and sisters when the only person holding the family together is now gone. Much like the film *The Big Chill*, *The House* is both painful and touching, brilliantly rendered on panoramic pages by Roca, who is known for his empathetic books like the 2017 Eisner Award-

nominated Wrinkles. At once deeply personal (dedicated to Roca's own deceased father) and entirely universal, *The House* details the struggle to overcome the past, but still hold onto the memories.

The basics of the profession and practice of architecture, presented in illustrated A-Z form. The word "architect" is a noun, but Doug Patt uses it as a verb—coining a term and making a point about using parts of speech and parts of buildings in new ways. Changing the function of a word, or a room, can produce surprise and meaning. In *How to Architect*, Patt—an architect and the creator of a series of wildly popular online videos about architecture—presents

the basics of architecture in A-Z form, starting with "A is for Asymmetry" (as seen in Chartres Cathedral and Frank Gehry), detouring through "N is for Narrative," and ending with "Z is for Zeal" (a quality that successful architects tend to have, even in fiction—see The Fountainhead's architect-hero Howard Roark.) How to Architect is a book to guide you on the road to architecture. If you are just starting on that journey or thinking about becoming an architect, it is a place to begin. If you are already an architect and want to remind yourself of what drew you to the profession, it is a book of affirmation. And if you are just curious about what goes into the design and construction of buildings, this book tells you how

architects think. Patt introduces each entry with a hand-drawn letter, and accompanies the text with illustrations that illuminate the concept discussed: a fallen Humpty Dumpty illustrates the perils of fragile egos; photographs of an X-Acto knife and other hand tools remind us of architecture's nondigital origins. How to Architect offers encouragement to aspiring architects but also mounts a defense of architecture as a profession—by calling out a defiant verb: architect!

In 1964, Calvin Tomkins spent a number of afternoons interviewing Marcel Duchamp in his apartment on West 10th Street in New York City. The Afternoon

Interviews reveals him to be a man and an artist whose playful principles toward living freed him to make art that was as unpredictable, complex, and surprising as life itself. The book includes never before published portraits of Duchamp recently discovered in the Philadelphia Museum of Art archive and an introductory interview with Tomkins reflecting on Duchamp as an artist, guide and friend. Marcel Duchamp: The Afternoon Interviews reintroduces the reader key ideas of his artistic world in a lively and candid way and renews him as a vital model for a new generation of artists living and working today.
