It is very rightly said that if we teach today as we taught yesterday, then we rob our children of tomorrow. With this vision, CISCE has yet again updated and released its curriculum for the upcoming Academic Year. With all the refreshing changes and updates, the way ahead looks exciting for students and teachers alike! We at Oswaal Books, are also extremely upbeat about the recent changes. We have made every possible effort to incorporate all these changes in our books for the coming Academic Year. Questions incorporated in this book follow the latest syllabus, pattern and marking guidelines of the Council to guide the candidates to answer with precision. This will help students to get familiar with the examination techniques. These Question banks are available for all important subjects like Maths, English, Hindi, Physics, Chemistry, Biology, History & Civics, Geography, Commercial Studies, Commercial Applications, Economic applications & Computer Applications & Economics. We at Oswaal Books never try to teach our readers. We on the other hand, provide them the conditions in which they can learn and train their mind to think! After all Education is what remains after one has forgotten what one learned in school. Some of the key benefits of studying from Oswaal Solved Papers are:

- Strictly based on the latest CISCE Curriculum issued for Academic Year 2020-2021

It is with their expertise, guidance and a keen eye for details that the content in each offering meets the need of the students. No wonder, Oswaal Books holds an enviable place in every student's heart!

A thoroughly updated second edition of the bestselling book Asian Brand Strategy, Martin Roll provides a comprehensive framework for understanding Asian branding strategies and Asian brands, based on new research and supported throughout by a wealth of new case studies. Martin Roll offers insights, knowledge and perspectives on Asian brands and branding as a strategic tool and provides a comprehensive framework for understanding Asian branding

strategies and Asian brands, including success stories and challenges for future growth and strengths. Asian Brand Strategy includes theoretical frameworks and models and up-to-date case studies on Asian brands, and it a must-read for Asian and Western business leaders as well as anyone interested in the most exciting region of the world. Towards 2020, a rapid changing landscape will emerge in Asia where the opportunities for Asian companies to benefit from global branding efforts will be larger than ever before. The growing emphasis on shareholder value and brand strategy to drive value will move up the boardroom agenda and become one of the most prominent drivers of value in Asia Pacific. The book presents the Asian Brand Leadership model illustrating the paradigm shift Asian brands need to undertake to unleash their potential.

Universities for years have been the bright spot in our educational system. Today, these institutions are under siege from multiple constituencies including students, parents, legislators, government officials and their own faculties. Education has historically been a way for students to improve their lives and fortunes. However, the rising costs of college are a barrier to access for many students, reducing their chances for upward mobility. Is technology the solution, or is it just another costly problem for universities? The purpose of this book is to explore how new technology has the potential to transform higher education. However, this same technology also has the potential to disrupt universities. Much depends on how administrators, faculty and students apply technologically enhanced learning. Technology and the Disruption of Higher Education presents details on MOOCs, blended, flipped and online classes and their role in transforming higher education based on the author's experiences teaching all of these types of courses. These technology-enabled approaches to teaching and learning offer tremendous opportunities to schools, but they also threaten the traditional university. The book identifies some of these threats and opportunities and offers suggested strategies to take advantage of the technology. Is this technology enough to save the university system?

While new ways of teaching and learning are exciting, they are only part of the puzzle. Radical change beyond what happens in the classroom is needed if our higher education system is to continue to flourish and some of these ideas are discussed in the last chapter of the book. The book is a call to action for educators to realize that the technology is both transformational and disruptive, and that some universities are going to fail in the next 15 years.

Contents: Preface Acknowledgments On the Nature of the University: Introduction What Is a College Education All About? Why a Revolution? Technology-Enhanced Learning: Changing the Way We Teach Blending and Flipping A High-Quality Online MBA Program The MOOC Movement Disrupting and Transforming the University: Deploying the Technology Opportunities and Threats Cost and Quality A Vision for the Future The Art of Survival Changing the System References Appendix Readership: Students, teaching professionals and policymakers who are keen to understand the impact of technology on higher education.
