This book guides evaluators in planning a comprehensive, yet practical, program evaluation—from start to design—within any context, in an accessible manner.

This book provides a ‘ no-nonsense ’ guide to project management which will enable library and information professionals to lead or take part in a wide range of projects from large-scale multi-organization

## Access Free Guide To Project Evaluation

complex projects through to relatively simple local ones. Barbara Allan has fully revised and updated her classic 2004 title, *Project Management*, to incorporate considerable developments during the past decade, including: the development and wide-scale acceptance of formal project management methodologies; the use of social media to communicate and disseminate information about projects and the large shift in the types of project library and information workers may be involved in. The text is supported by practical case studies drawn from a wide range of LIS organizations at local, regional, national and international levels. These examples provide an insight into good practice for the practitioner, from an individual working in a voluntary organization on an extremely limited budget, to someone involved in an international project. Content covered includes: an introduction to project management, project workers and the library and information
