I applied through a recruiter. I interviewed at Ladders (New York, NY (US)) in October 2018. Interview. I received an email from a recruiter about interviewing for a Senior PM process. I set up a time for an initial phone screen. The recruiter didn't call me at the scheduled time, so I followed up via our email conversation. He never responded.

Prior to 1862, when the Department of Agriculture was established, the report on agriculture was prepared and published by the Commissioner of Patents, and forms volume or part of volume, of his annual reports, the first being that of 1840. Cf. Checklist of public documents ... Washington, 1895, p. 148.

“A satire of writerly ambition wrapped in a psychological thriller . . . An homage to Patricia Highsmith, Oscar Wilde and Edgar Allan Poe, but its execution is entirely Boyne's own.”—Ron Charles, *The Washington Post*  
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND MINNEAPOLIS STAR TRIBUNE Maurice Swift is handsome, charming, and hungry for fame. The one thing he doesn't have is

talent—but he’s not about to let a detail like that stand in his way. After all, a would-be writer can find stories anywhere. They don’t need to be his own. Working as a waiter in a West Berlin hotel in 1988, Maurice engineers the perfect opportunity: a chance encounter with celebrated novelist Erich Ackermann. He quickly ingratiates himself with the powerful – but desperately lonely – older man, teasing out of Erich a terrible, long-held secret about his activities during the war. Perfect material for Maurice’s first novel. Once Maurice has had a taste of literary fame, he knows he can stop at nothing in pursuit of that high. Moving from the Amalfi Coast, where he matches wits with Gore Vidal, to Manhattan and London, Maurice hones his talent for deceit and manipulation, preying on the talented and vulnerable in his cold-blooded climb to the top. But the higher he climbs, the further he has to fall. . . . Sweeping across the late twentieth century, *A Ladder to the Sky* is a fascinating portrait of a relentlessly immoral man, a tour de force of storytelling, and the next great novel from an acclaimed literary virtuoso. Praise for *A Ladder to the Sky* “Boyne’s mastery of perspective, last seen in *The Heart’s Invisible Furies*, works beautifully here. . . . Boyne understands that it’s far more interesting and satisfying for a reader to see that narcissist in action than to be told a catchall phrase. Each step Maurice Swift takes skyward reveals a new layer of calumny he’s willing to engage in, and the desperation behind it . . . so dark it seems almost impossible to enjoy reading *A Ladder to the Sky* as much as you definitely will enjoy reading it.”—NPR “Delicious . . . spins out over several decades with thrilling unpredictability, following Maurice as he masters the art of co-opting the stories of others in increasingly dubious ways. And while the book reads as a thriller with a body count that would make Highsmith proud, it is also an exploration of morality and art: Where is the line between inspiration and thievery? To whom does a story belong?”—Vanity Fair

A practical treatise on the processes and standards required for the effective time management of major construction projects This book uses logical step-by-step procedures and examples from inception and risk appraisal—through design and construction to testing and commissioning—to show how an effective and dynamic time model can be used to manage the risk of delay in the completion of construction projects. Integrating with the CIOB major projects contract, the new edition places increased emphasis on the dynamic time model as the way to manage time and cost in major projects, as opposed to the use of a static target baseline program. It includes a new chapter distinguishing the principal features of the dynamic time model and its development throughout the life of a project from inception to completion. *Guide to Good Practice in the Management of Time in Major Projects—Dynamic Time Modelling, 2nd Edition* features new appendices covering matters such as complexity in construction and engineering projects, productivity guides (including specific references to the UK, Australia, and the USA), and a number of case studies dealing with strategic time management and high-density, resource-based scheduling. Provides guidance for the strategic management of time in construction and civil engineering projects Demonstrates how to use a dynamic time model to manage time pro-actively in building and civil engineering projects Sets out processes and standards to be achieved ensuring systematic documentation and quality control of time management Integrates with the CIOB major projects contract *Guide to Good Practice in the Management of Time in Major Projects—Dynamic Time Modelling, 2nd Edition* is an ideal handbook for project and program management professionals working on civil engineering and construction projects, including those from contractors, clients, and project management consultants.

The ICETE Programme for Academic Leadership (IPAL) was officially established in 2010 and arose out of the need to provide training to theological institutions in different regions of the world. IPAL provides a three-year cycle of seminars for the professional development of evangelical academic leaders and administrators to help institutions in their pursuit of quality and excellence in theological education. This publication is the third and final volume intended to accompany and support the IPAL seminars as well as be an independent resource to aid theological institutions with faculty development. Faculty development is at the heart of theological education. This book lays the foundation for institutions to equip, train and release emerging academic leaders to advance their careers and improve the standards of their teaching and research. The contributors to this volume share the findings of research conducted at evangelical academic institutions in various contexts around the world so other senior administrators can enhance the quality of theological education at their own institution.

This timely Handbook unpacks the underlying common factors that give rise to corrupting environments. Investigating opportunities to deliver ethical public policy, it explores global trends in public administration and its vulnerability to corruption today, as well as proposing strategies for building integrity and diminishing corruption in public sectors around the globe.
