En La Gestión del marketing de servicios, Fernández y Bajac han logrado algo destacable e inusual: su libro constituye una valiosa herramienta de aprendizaje tanto para un público puramente académico, como para el segmento profesional. Los autores presentan el tema en una estructura conceptual sólida, y lo desarrollan en forma lógica y sistemática. Mediante una buena base teórica, los ejemplos ofrecidos y la organización que eligieron darle al material, Fernández y Bajac han logrado que tanto el estudiante de marketing, como operadores de nivel gerencial encuentren aquí un importante recurso aplicable a la prestación de servicios. La correcta y clara identificación de las variables a tener en cuenta, y el grado de análisis que los autores presentan contribuyen a que este libro sea absolutamente recomendable para toda biblioteca académica y/o empresarial.

In this textbook, Heizer (business administration, Texas Lutheran U.) and Render (operations management, Rollins College) provide a broad introduction to the field of operations management. A sampling of topics includes operations strategy for competitive advantage, forecasting, design of goods and services, human resources, e-commerce, project management, inventory management, and maintenance. The CD-ROM contains video case studies, lecture notes, Excel OM and Extend software, and additional practice problems. Annotation copyrighted by Book News Inc., Portland, OR
