At 446 pages and 26 chapters, Capon's Marketing Framework 4th Edition is shortened version of Managing Marketing in the 21st Century, 4th Edition. Nonetheless, this book provides a solid framework for marketing students. Capon's Marketing Framework is about understanding how to develop market strategy and manage the marketing process. This is not a book that attempts to describe all there is to know about marketing; rather, this book focuses on what the prospective manager needs to know. Hence, Capon's Marketing Framework differs from other senior undergraduate and introductory graduate-level marketing texts. We take a position on what we believe is a better or worse course of action for marketers. Marketing is an applied field, and we believe textbook writers should provide guidance for good marketing practice. In addition, we focus on the manager, not just the marketer. For readers committed to a career in marketing (and we hope there are many), Capon's Marketing Framework will form a solid foundation as you study marketing further and deeper. But the vast majority of you will not work in marketing departments, and will instead become senior executives, general managers, CFOs, and CEOs. We write for you also, because an understanding and appreciation of marketing is central to virtually every important decision that managers make. Because this marketing course will be the only one many of you will take, in a sense, this book provides what every general manager and senior executive must know about marketing. Marketing activity lies at the core of leading and managing a business. Marketing provides the focus for interfacing with customers. Marketing is also the source of insight about the market, customers, competitors, complementors, and the business environment in general. Capon's Marketing Framework contains introductory chapter cases, many examples, Internet links to additional material, video/audio interviews, key ideas, marketing questions, and multiple choice and true/false questions and answers.

When Guerrilla Marketing was first published in 1983, Jay Levinson revolutionized marketing strategies for the small-business owner with his take-no-prisoners approach to finding clients. Based on hundreds of solid ideas that really work, Levinson's philosophy has given birth to a new way of learning about market share and how to gain it. In this completely updated and expanded fourth edition, Levinson offers a new arsenal of weaponry for small-business success including * strategies for marketing on the Internet (explaining when and precisely how to use it) * tips for using new technology, such as podcasting and automated marketing * programs for targeting prospects and cultivating repeat and referral business * management lessons in the age of telecommuting and freelance employees Guerrilla Marketing is the entrepreneur's marketing bible -- and the book every small-business owner should have on his or her shelf.
