Sea otters are part of the weasel family. They have webbed feet, water-repellent fur to keep them dry and warm, and nostrils and ears that close in the water. Sea otters often float at the water's surface in forests of kelp, or giant seaweed, and entangle themselves to keep from moving in the rolling sea. While floating on their backs, sea otters not only nap, but also use rocks to help them ...

Brief text and illustrations teach facts about marine animals.

Awesome underwater animals offer so much for young readers to explore! Gentle manatees, adorable otters, active sea turtles, and some of the wackiest creatures under the sea will fascinate fact-hungry kids. Follow these playful and smart animals through their aquatic habitats and learn about what makes each swimmer lovable and unique. Fascinating animal information is accompanied by wonderful photographs to ensure that kids' natural curiosity is both satisfied AND inspired.

Introduces several of the ocean's species, provides profiles of creatures, from dolphins and sharks to sea otters and penguins, while sharing facts about their characteristics, diets, and habitats.

An in-depth guide to sharks includes information on where they live, how they eat, the challenges they face, and whether or not certain species pose a danger to humans--

Are these strange animals the stuff of nightmares or aliens from outer space? Turns out, they're real undersea animals! Find out how deep-sea creatures use bizarre and fascinating adaptations to survive in their harsh environments in this Level 3 Reader. Journey through the depths of the ocean into the dark Midnight Zone and discover the mysterious animals that live there. Learn about how their bodies make their own light or adapt to living in low-light areas, how they hunt, what they eat, and how they keep themselves safe from predators. National Geographic Readers' combination of expert-vetted text, along with brilliant images and a fun approach to reading has proved to be a winning formula with kids, parents, and educators. Level 3 text provides accessible, yet wide-ranging information for fluent readers. Each reader includes text written by an experienced, skilled children's books author, a photo glossary, and interactive features in which kids get to reinforce what they've learned in the book.

Examines creatures that live in the sea, including the blobfish, jellyfish, and moray eels.

Readers help Dory and Martin look for Nemo in the ocean.

Swim with sharks Dive with dolphins Stroll the beach with penguins Young readers will joyfully immerse themselves in this awesome adventure at sea, in which stunning National Geographic photos reveal hidden worlds of action and beauty. We meet 30 favorite sea creatures and explore their watery homes: playful dolphins, mysterious sharks, graceful sea turtles, waddling penguins, and dozens of others. Kids will marvel at speedy swimmers on the hunt, and smile at cuddly scenes of animal families. To give background on the attention-grabbing photographs, each page is sprinkled with fun facts and layered with information about ocean wildlife and environments. Age-appropriate text tells each animal's story in language that's accurate, lively, and non-intimidating. National Geographic maps encourage kids to learn about the geography of land and sea. Conservation tips help readers of all ages understand how we can be kind to the oceans. At home in the classroom and on the family bookshelf, is a trove of thrilling sights and discoveries. Timed to coordinate with the release of Disney's much-anticipated movie on Earth Day 2010, this exciting book taps into and encourages new awareness about the world's marine environments.

Dive beneath the waves with this fun search and find fact book from National Geographic Kids.

Dive into these fishy facts: Did you know that the prehistoric shark, megalodon, had jaws so big that it could swallow a car? Or that goats, pigs, dogs, cats, and even an alpaca have all learned how to surf? And if that's not weird enough for ya, one man even rowed solo across the Pacific Ocean for 312 days! In this book filled with 300 wacky facts and pictures, you'll glimpse the ocean's weirdest wildlife, uncover shocking shipwrecks, and meet sensational seafarers, from pirates and sailors to ground-breaking marine scientists. Perfect for ocean enthusiasts and trivia-loving landlubbers alike!
