The Apple Watch
Series 5
combines all the
features you

Access Free

Nike Plus

could ever want from a wearable band. Every year, Apple has been adding necessary features to make the Apple watch better. The Series 2 came with the needed power for native apps. After that, Series 3

Access Free

Nike Plus

Sportswatch

brought cellular connectivity and Series 4 had

display pushed to full

capacity. Series 5 allows for an always-on

display. The watch is now a watch. If you

own the Series 4, an always-on display may not

Access Free

Nike Plus

be reason enough
to upgrade.

However, the

Series 5 offers
much more. Apple
is not the first
manufacturer to
do this, but
they might as
well be the
best. Monochrome
veneer,

layer—all these things are not there. You only get an existing watch face; always on. How does it work? With previous versions, the Apple Watch would go into sleep mode when you were not interacting with

it. The same
thing happens
with the Apple
Series 5.
