~~When Susan's beloved husband Ian was killed in a helicopter accident in June 1994, she faced overwhelming despair. Her pain was compounded when her parents died just months later. But Susan had two children and a determined outlook, and was on a mission to testify to the important work Ian had done in the struggle to bring peace and stability to Northern Ireland. She wrote a hugely successful book about Ian, but once she'd finished, she realized she herself was still in terrible pain. Gradually, though, she came to understand through the power of her angel guides and with help from clairvoyants that Ian was indeed, as she had suspected, still very much a real part of her life. This is a unique memoir of a one woman's struggle back from despair and of the inspirational help available to all of us from the spirit world. Susan never believed that she'd be beaten by what life had thrown at her and this is a story of warmth, humor, candor, and faith to inspire us all.~~

~~In Northern Ireland, the conflicting claims and aspirations of Catholic and Protestant, nationalist and unionist, republican and loyalist grate against each other, at each turn escalating the potential for renewed death and destruction. Hope for a peaceful future is not enough to cont with history. In Ulster, history has vanquished hope so often that it seems an act of folly to expect it to be otherwise. Until recently, the crisis in Northern Ireland was deemed a problem without a solution. Now that the major antagonists have agreed to work for peace and democracy, it is time for an authoritative assessment of "the troubles" that have plagued Ulster for more than a quarter century. A Belfast product of mixed Catholic and Protestant heritage, Jack Holland is both of and above the fray; he is the writer who has stayed close to the terrorists and antiterrorists of every persuasion since 1966. In this cogent and balanced history, he unravels the complex and often misunderstood story of "the troubles," offering an insightful look at the past, a thorough vision of the present, and a glimpse of what the future may hold.~~

~~Vague references to the 'war on terror' and the 'threat to national security' are frequently used by venal politicians to cover-up criminal associations and covert illegal activity, ranging from money-laundering, narcotics trafficking, abduction and murder to the wholesale slaughter of non-combatant civilians - glibly dismissed as 'collateral damage' in mainstream media coverage of state terror. From the Caucasus to the Middle East and the streets of European capitals, while locally, in towns and villages that never make headlines, predatory Catholic clergy and radical Islamic academics and imams abuse trust to accommodate their personal agendas of greed, lust and revenge. The issues in Understanding Shadows include how the overweening pride of US and European intelligence agencies contributed to the development of the 'Islamic' bomb, and the proliferation of nuclear technology; crime and extra-judicial 'punishment' in Russia and abroad under President Putin; and how the bloody and brutal end of 'democratic Islam' in Algeria has facilitated the 'fear and loathing' which has dominated the West's security agenda since 9/11.The arrogance and political hubris of former British PM, Tony Blair, and the corrupt use of intelligence, took the UK to war in Iraq, and was a factor in the lonely death of WMD specialist, Dr David Kelly, while 'off stage' Israel continued its colonization of occupied Arab lands and upgraded its collective punishment of Gaza. There is an account of the curious journey the CIA's USSR 'dangle'. Lee Harvey Oswald, made across Cold War Europe in June 1962, while the end of the apartheid regime in South Africa provided an opportunity for self-serving, power-hungry ANC politicians to 'feather their own nests' at the expense of the impoverished majority - a depressing example of a righteous liberation struggle turned sour.Meanwhile, the 'long war' continued. Operation 'Banner' was the codename given to the longest British Army deployment since 1945. In the North of Ireland, where the 36-year period of active service is referred to as the 'Troubles', clandestine military units, including the murderous Force Research Unit , waged a 'dirty war' against the Provisional IRA in particular, and the nationalist community in general. An estimated 763 British soldiers died and over 6,000 were injured during the 'Troubles'. An awareness of the 'back stories' to these issues is an important factor for the understanding of shadows.~~

~~Special Operations Forces (SOF) have never been an integral element of Canada's military capability. Although units have existed periodically throughout the country's history, they have always been in the shadows. However, the terrorist attack in the United States on September 11, 2001, changed that. In the aftermath of 9/11, SOF became the force of choice. Casting Light on the Shadows consists of a series of essays on SOF-related issues written by individuals with specialized knowledge and expertise in the field. As well as providing a solid foundation for SOF theory, historical background, and evolution, the book also highlights ongoing developments in SOF.~~

~~This book provides an account and analysis of policing in Northern Ireland, providing an account and analysis of the RUC (Royal Ulster Constabulary) from the start of 'the troubles' in the 1960s to the early 1990s, through the uneasy peace that followed the 1994 paramilitary ceasefires (1994-1998), and then its transformation into the Police Service of Northern Ireland following the 1999 Patten Report. A major concern is with the reform process, and the way that the RUC has faced and sought to remedy a situation where it faced a chronic legitimacy deficit. Policing Northern Ireland focuses on three key aspects of the police legitimisation process: reform measures which are implemented to redress a legitimacy crisis; representational strategies which are invoked to offer positive images of policing; and public responses to these various strategies. Several key questions are asked about the ways in which the RUC has sought to improve its standing amongst nationalists: first, what strategies of reform has the RUC implemented? second, what forms of representation has the RUC employed to promote and portray itself in the positive terms that might secure public support? third, how have nationalists responded to these initiatives? The theoretical framework and analysis developed in the book also highlights general issues relating to the implications of police legitimacy and illegitimacy for social conflict and divisions, and their management and/or resolution, in relation to transitional societies in particular. In doing so it makes a powerful contribution to wider current debates about police legitimacy, police-community relations, community resistance, and conflict resolution.~~

~~In this compelling, powerful book, highly respected writer and commentator Jack Holland sets out to answer a daunting question: how do you explain the oppression and brutalization of half the world's population by the other half, throughout history? The result takes the reader on an eye-opening journey through centuries, continents and civilizations as it looks at both historical and contemporary attitudes to women. Encompassing the Church, witch hunts, sexual theory, Nazism and pro-life campaigners, we arrive at today's developing world, where women are increasingly and disproportionately at risk because of radicalised religious belief, famine, war and disease. Well-informed and researched, highly readable and thought-provoking, this is a refreshingly straightforward investigation into an ancient, pervasive and enduring injustice. It deals with the fundamentals of human existence -- sex, love, violence -- that have shaped the lives of humans throughout history. The answer? It's time to recognize that the treatment of women amounts to nothing less than an abuse of human rights on an unthinkable scale. A Brief History of Misogyny is an important and timely book that will make a long-lasting contribution to the efforts to improve those rights throughout the world.~~
