Putin's Master Plan is the first comprehensive attempt to systematically explain Putin's global strategy, which could inevitably and inexorably lead to the breakup of the NATO alliance, and potentially to war with the West. Currently, the West has no strategy, no plan, and no tactics to confront Putin's master plan other than imposing limited economic sanctions, which have done little to deter Putin's aggression and may well have encouraged and facilitated it.

Putin's Master Plan makes the case that it is essential to wake up to Putin's strategy to destroy Europe, divide NATO, and build a new empire in the former Soviet Union. Russia has demonstrated an extraordinary level of aggression, most boldly in its outright invasions of Georgia and Ukraine.

Vladimir Putin has a master plan to destroy Europe, divide NATO, reclaim Russian influence in the world, and most of all to marginalize the United States and the West in order to achieve regional hegemony and global power. Putin's unified strategy and vision for Europe has not been thoroughly discussed or articulated in any meaningful way until now. Putin's Master Plan is the first comprehensive attempt to systematically explain Putin's global strategy, which could inevitably and inexorably lead to the breakup of the NATO alliance, and potentially to war with the West. Currently, the West has no strategy, no plan, and no tactics to confront Putin's master plan other than imposing limited economic sanctions, which have done little to deter Putin's aggression and may well have encouraged and facilitated it. The viewpoint taken here is not just alarmism, but an accurate and, for the first time, clear and sober portrayal of a frightening situation that, more and more, serious observers of European and Russian politics are openly recognizing and acknowledging. Putin's Master Plan makes the case that it is essential to wake up to Putin's strategy to destroy Europe, divide NATO, and build a new empire in the former Soviet Union. Russia has demonstrated an extraordinary level of aggression, most boldly in its outright invasions of Georgia and Ukraine. American weakness and a divided Europe have left Russia's terrified neighbors without an alternative to Russian domination, and even once-stalwart American allies such as the Republic of Georgia are on the brink of becoming part of Putin's new empire in Europe. Putin has made it clear that he sees NATO expansion as a fundamental threat to Russian nationhood, and he is systematically challenging the NATO Alliance as well as the United States. So far, he is winning.

A provocative, comprehensive analysis of Vladimir Putin and Russia's master plan to destroy democracy in the age of Donald Trump. In the greatest intelligence operation in the history of the world, Donald Trump was made President of the United States with the assistance of a foreign power. For the first time, *The Plot to Destroy Democracy* reveals the dramatic story of how blackmail, espionage, assassination, and psychological warfare were used by Vladimir Putin and his spy agencies to steal the 2016 U.S. election -- and attempted to bring about the fall of NATO, the European Union, and western democracy. It will show how Russia and its fifth column allies tried to flip the cornerstones of democracy in order to re-engineer the world political order that has kept most of the world free since 1945. Career U.S. Intelligence officer Malcolm Nance will examine how Russia has used cyber warfare, political propaganda, and manipulation of our perception of reality -- and will do so again -- to weaponize American news, traditional media, social media, and the workings of the internet to attack and break apart democratic institutions from within, and what we can expect to come should we fail to stop their next attack. Nance has utilized top secret Russian-sourced political and hybrid warfare strategy documents to demonstrate the master plan to undermine American institutions that has been in effect from the Cold War to the present day. Based on original research and countless interviews with espionage experts, Nance examines how Putin's recent hacking accomplished a crucial first step for destabilizing the West for Russia, and why Putin is just the man to do it. Nance exposes how Russia has supported the campaigns of right-wing extremists throughout both the U.S. and Europe to leverage an axis of autocracy, and how Putin's agencies have worked since 2010 to bring fringe candidate Donald Trump into elections. Revelatory, insightful, and shocking, *The Plot To Destroy Democracy* puts a professional spy lens on Putin's plot and unravels it play-by-play. In the end, he provides a better understanding of why Putin's efforts are a serious threat to our national security and global alliances -- in

much more than one election -- and a blistering indictment of Putin's puppet, President Donald J. Trump.

WARNING: IMMEDIATE GLOBAL THREAT TO ALL DEMOCRATIC NATIONS BY THE CHINA-RUSSIA AXIS America's future has never seemed more uncertain. Our politics are dysfunctional; our cultural cohesion is a thing of the past; our institutions have lost legitimacy; and our identity as Americans seems increasingly subordinate to tribal or ideological identities. Overhanging all these issues is a loss of confidence in democracy itself, both in America and around the world, and the concomitant rise of authoritarianism as a viable model of governance in the eyes of millions. At the center of this story are two nations—Russia and China—that together stand as a profound challenge to the American and Western future, and to the future of democracy and human rights around the globe. As America unravels, China and Russia have taken every opportunity to expand their opportunities and consolidate their gains. If the United States is to prevail in this struggle, our efforts must begin with a better understanding of our determined adversaries in Beijing and Moscow—and of how their successes have emboldened the cause of authoritarianism around the world, to the detriment of free societies and free people. **HIGH PRAISE FOR DOUGLAS E. SCHOEN** Collapse "A remarkably comprehensive analysis of the challenges—internal and external—that we face today. Schoen is able to write intelligently about domestic and international issues alike, weaving them into one worrisome picture of the world— Well worth reading." —Fareed Zakaria, CNN host and author of *The Post-American World* Putin's Master Plan "Peace and security are deteriorating across Europe not only because of the heightened terrorist threat, but also because of a toxic mix of Russian belligerence and NATO weakness. In this timely analysis, Douglas Schoen argues convincingly that American leadership remains key to peace in Europe, as it has for over seventy years." —John Bolton, Former National Security Advisor and bestselling author of *The Room Where It Happened* America in the Age of Trump "— a terrific read, engaging and richly sourced, a provocative take on big, controversial issues and on political leaders... especially powerful regarding the loss of trust in institutions— it will challenge you to think critically about your own views and justify your idea of the American future." —Bob Shrum, Democratic strategist and the Carmen H. and Louis Warschaw Chair in Practical Politics at the University of Southern California

More relevant than ever, this interesting handbook on modern all-enveloping warfare was first published in China in 1999. Re-digitized from the 2004 Filament Books edition, this new edition contains specific methods for American troops, government, academia, and business circles for dealing with unrestricted warfare. Coauthored by Major General Qiao Liang and Wang Xiangsui, the book has been required reading at West Point. The People's Liberation Army manual for asymmetric warfare details the waging of war, strategically and tactically, using weapons not limited to bullets, bombs, missiles, and artillery shells. The two PLA officers who advocated the strategy set forth in the following pages argue that modern warfare, in ways not too dissimilar from Sun Tzu's *Art of War*, is about impeding the enemy's ability to wage war and to defend itself against a barrage of attacks against its economy, its civil institutions, its governmental structures, and its actual belief system. This is not a manual for achieving an overnight victory. Rather, it is a recipe for a slow but inexorable assault on an enemy's institutions, often without the enemy's knowledge that it is even being attacked. As Sun Tzu once wrote, "If one party is at war with another, and the other party does not realize it is at war, the party who knows it's at war almost always has the advantage and usually wins." And this is the strategy set forth in **Unrestricted Warfare,** waging a war on an adversary with methods so covert at first and seemingly so benign that the party being attacked does not realize it's being attacked. In the age of the worldwide internet, what seems like the free flow of information is also an open door policy for one country to insert its propaganda into the thinking and belief systems of its enemy. Do we consider Vladimir Putin's Russia to be a friend to the United States? Are we really that naïve? Voting constituencies might have very legitimate reasons to support the politicians of their choice, but when those choices are based on the flow of absolutely false information inimical to the best interests of that population, it is an example of

Read Online Putins Master Plan To Destroy Europe Divide Nato And Restore Russian Power And Global Influence

the success of asymmetric or unrestricted warfare, in essence, propaganda war. The Russians have been experts at this since the days of the czar, and since the experiments of Pavlov and his dogs have mastered the art of getting the responses they want from the stimuli they inject into their subjects' thought patterns. In this past election cycle, it worked. As you read the following pages, a manual for the military humbling of the United States through nonmilitary means that most Americans will not even realize, you should understand that this is not just a "what if," but a reality. It is happening now even as North Korea's Kim blusters about sending missiles towards Guam and Donald Trump responds by rattling his own saber in its scabbard. China, meanwhile, watches while its enemy is engaged with a tiny country that has the means to send nuclear tipped ICBMs to American cities. If North Korea attacks Guam or Pearl Harbor and the United States responds, who benefits? Not North Korea, not South Korea, not the United States. China benefits when U.S. Naval facilities on Guam or at Pearl Harbor are damaged so that the American presence in the Pacific is diminished to the point of incapacity. Readers, therefore, should take this little manual as a dire warning. Complacency cripples. Hubris kills. And blindness without guidance usually leads one into the nearest wall if not hurtling down a flight of stairs. Thus, although this book was written almost twenty years ago, it should be regarded as the playbook for the destruction of not only the United States, but of western democracies in general.

Russia, again, is on the move. The news headlines proclaim it. Georgia was first. Then, Ukraine and the invasion of Crimea. Meddling in the elections of the United States followed. For the fourth straight year, Forbes has ranked Vladimir Putin as the world's most powerful person—even above the president of the United States. Like it or not, the world has descended into a new Putin-led Cold War 2.0. As the storm clouds gather, America sleeps. Russia's hand in Syria and its closer ties to Iran are especially alarming to those who know Bible prophecy and the book of Ezekiel. Putin is poised right now on Israel's northern border—an ominous sign of our times. What does the Bible say about our troubling times? In *Russia Rising*, Mark Hitchcock, popular speaker and Bible prophecy expert, explores the history of Russia and its current military moves. He will explain the biblical prophecies related to Russia, the Middle East, and the end times. The tracks of the Russian bear lead to the Middle East and Israel. Are we on a collision course with Russia?

The contributions gathered in this fascinating collection, in which scholars from a diverse range of disciplines share their perspectives on Russian covert activities known as Russian active measures, help readers observe the profound influence of Russian covert action on foreign states' policies, cultures, people's mentality, and social institutions, past and present. Disinformation, forgeries, major show trials, cooptation of Western academia, memory, and cyber wars, and changes in national and regional security doctrines of states targeted by Russia constitute an incomplete list of topics discussed in this volume. Most importantly, through a nexus of perspectives and through the prism of new documents discovered in the former KGB archives, the texts highlight the enormous scale and the legacies of Soviet/Russian covert action. Because of Russia's annexation of Crimea in 2014 and its on-going war in Ukraine's Donbas, Ukraine lately gained international recognition as the epicenter of Russian disinformation campaigns, invigorating popular and scholarly interest in conventional and non-conventional warfare. The studies included in this collection illuminate the objectives and implications of Russia's attempts to ideologically subvert Ukraine as well as other nations. Examining them through historical lenses reveals a cultural clash between Russia and the West in general.

This book examines the Soviet genocide in Ukraine in the 1920s and 1930s, from its Marxist-Leninist roots to its subsequent cover-up and denial. The author analyzes the role intellectual elites—especially teachers—played in shaping, contesting, and inculcating the history of the genocide.

"Over the past decade, Euroskepticism has been on the rise, with many predicting the end of the European Union and the failure of progressive European values. With Brexit on the horizon, the far-right

Read Online Putins Master Plan To Destroy Europe Divide Nato And Restore Russian Power And Global Influence

in power in Poland, authoritarianism on the rise in Hungary, riots in Paris, and austerity policies in place across the continent, it often seems that there is little reason to be optimistic about Europe's future or proud of its recent past. Konrad Jarausch begs to differ. In this book, which he will write as a Tony Judt-style extended essay, he traces the history of Europe since 1989 and finds much cause for hope. Despite the Greek debt crisis, the weak reaction to the Russian invasion of Eastern Ukraine, and other failures that Euroskeptics cite frequently, the European model is strong. Jarausch ends his narrative by pointing to successes, such as Danish efforts to combat global warming, Sweden's restructuring of its welfare system, and Spain's transition to democracy and its ability to cope with a large influx of immigrants, among many other issues. Though Europe has many challenges to overcome in the next few decades, it still presents a powerful alternative to American-style unbridled capitalism and right-wing populism. Jarausch will color his narrative with his own impressions of living in both Europe and the United States at various points during this period"--

“This book is a timely reminder of the ties that join Russia and the European Union and the opportunities that still exist to improve a troubled relationship. The book does not shy away from the difficulties that the relationship currently faces, but seeks to find opportunities in these obstacles that could lead to improvements. With the voice of Russian scholars fully audible in this excellent collection of essays, this book provides an excellent opportunities for English-speaking audiences to learn more about this complex relationship.” Victor Bulmer-Thomas, Chatham House, UK “The thinking of Evgeny Pashentsev in this volume presents an enlightening analysis and synthesis of the integration of the political, social, cultural and technological advances around the globe with respect to their impact on EU-Russia relations. His chapters are a must read for both scholars and strategic consultants who seek to understand the future of the paradigm shift taking place in these countries.” Bruce I. Newman, DePaul University, USA, and Founding Editor-in-Chief, Journal of Political Marketing In this book the international team of EU, Russian and US researchers focus on the dangerous challenges of the current unstable international equilibrium and opportunities of the breakthrough for a better future. Eight chapters engage with a variety of issues, ranging from general tendencies and controversies in EU-Russia strategic communication and its political and economic aspects to reputation management of Russian companies in the EU and the psychological aspect of US sanctions in EU-Russia relations. Analyzing the security dimension, the authors focus on the geopolitical threats, opportunities and risks of advanced technologies such as artificial intelligence, robotics, cyborgization and human genetics.

An epic tale of Vladimir Putin's path to power, as he emerged from obscurity to become one of the world's most conflicted and important leaders. Former New York Times Moscow Bureau Chief Steven Lee Myers has followed Putin since well before the recent events in the Ukraine, and gives us the fullest and most engaging account available of his rise to power. A gripping, page-turning narrative about Russian power and prestige, the book depicts a cool and calculating leader with enormous ambition and few scruples. As the world struggles to confront a newly assertive Russia, the importance of understanding Putin has never been greater. Vladimir Putin rose out of Soviet deprivation to the pinnacle of influence in the new Russian nation. He came to office in 2000 as a reformer, cutting taxes and expanding property rights, bringing a measure of order and eventually prosperity to millions whose only experience of democracy in the early years following the Soviet collapse was instability, poverty and criminality. But soon Putin orchestrated the preservation of a new kind of authoritarianism, consolidating power, reasserting his country's might, brutally crushing revolts and swiftly dispatching dissenters, even as he retained the support of many.
