In the late 1990s and early 2000s, a wave of TV shows, first on premium cable channels like HBO and then basic cable networks like FX and AMC, dramatically stretched television's inventiveness, emotional resonance and ambition. Shows such as *The Wire*, *Breaking Bad*, *The Sopranos*, *Mad Men*, *Deadwood*, *The Shield* tackled issues of life and death, love and sexuality, addiction, race, violence and existential boredom. Television shows became the place to go to see stories of the triumph and betrayals of the American Dream at the beginning of the twenty-first century. This revolution happened at the hands of a new breed of auteur: the all-powerful writer-show runner. These were men nearly as complicated, idiosyncratic, and "difficult" as the conflicted protagonists that defined the genre. Given the chance to make art in a maligned medium, they fell upon the opportunity with unchecked ambition. *Difficult Men* features extensive interviews with all the major players, including David Chase and James Gandolfini (*The Sopranos*), David Simon, Dominic West and Ed Burns (*The Wire*), Vince Gilligan (*Breaking Bad*), Matthew Weiner and Jon Hamm (*Mad Men*), David Milch (*NYPD Blue*, *Deadwood*) and Alan Ball (*Six Feet Under*), in addition to dozens of other writers, directors, studio executives and actors. shows, delivering never-before-heard story after story and revealing how TV has emerged from the shadow of film to become a truly significant and influential part of our culture. Brett Martin is the author of *The Sopranos: The Book* (2007). His work has appeared in *The New York Times*, *The New Yorker*, *Food and Wine* and *Vanity Fair*. *Difficult Men* is an insightful history of popular US TV drama which traces the emergence of shows such as *The Sopranos*, *Breaking Bad*, *Mad Men* and *The Wire*, and explores their engagement with important social issues around love, sexuality, race and violence.

In the richly interdisciplinary study, *Challenging Addiction in Canadian Literature and Classrooms*, Cara Fabre argues that popular culture in its many forms contributes to common assumptions about the causes, and personal and social implications, of addiction. Recent fictional depictions of addiction significantly refute the idea that addiction is caused by poor individual choices or solely by disease through the connections the authors draw between substance use and poverty, colonialism, and gender-based violence. With particular interest in the pervasive myth of the "Drunken Indian", Fabre asserts that these novels reimagine addiction as social suffering rather than individual pathology or moral failure. Fabre builds on the growing body of humanities research that brings literature into active engagement with other fields of study including biomedical and cognitive behavioural models of addiction, medical and health policies of harm reduction, and the practices of Alcoholics Anonymous. The book further engages with critical pedagogical strategies to teach critical awareness of stereotypes of addiction and to encourage the potential of literary analysis as a form of social activism.
