Synopsis. "Spiral Dynamics" introduces a new model for plotting the enormous economic and commercial shifts that are making contemporary business practice so complex and apparently fragmented. Focusing on cutting-edge leadership, management systems, processes, procedures, and techniques, the authors synthesize changes such as: increasing cultural diversity; powerful new social responsibility initiatives; and, the arrival of a truly global marketplace.

Spiral Dynamics: Mastering Values, Leadership and Change ...

Spiral Dynamics: Mastering Values, Leadership and Change, honestly felt like more of a textbook than a standard publication; based in over 40 years of research - its profundity cannot be expressed through these words and funnily enough, its contents do a great job of expounding why you will either find yourself bored in reading, or in accordance, having realised its power in practically recontextualising your entire perception of all of human civilisation up until and going beyond the present mo

Spiral Dynamics: Mastering Values, Leadership and Change ...

Spiral Dynamics takes a broader view. Each level of development is represented on a spiral and is called a "Value Meme" (vMeme), which expresses itself through the "little memes." You will normally see "vMeme" abbreviated to Meme, with a capital "M" to distinguish it from the "little memes." Each Meme is a code, or a system of information.

Spiral Dynamics: Mastering Values, Leadership and Change ...

They first published their construct in Spiral Dynamics: Mastering Values, Leadership, and Change (Exploring the New Science of Memetics) (1996). They introduced a simple color-coding for the eight value systems identified by Graves (and a predicted ninth) which is better known than Graves's letter pair identifiers.

Spiral Dynamics introduces a new model for plotting the enormous economic and commercial shifts that are making contemporary business practice so complex and apparently fragmented. Focusing on cutting-edge leadership, management systems, processes, procedures, and techniques, the authors synthesize changes such as: Increasing cultural diversity. Powerful new social responsibility initiatives. The arrival of a truly global marketplace. This is an inspiring book for managers, consultants, strategists, and leaders planning for success in the business world in the 21st century.

A more effective leadership model for the new business environment. Spiral Dynamics in Action explores the evolution of modern business, and provides a model for moving forward amidst ever-increasing complexity and change. Only by truly understanding other people's perspectives can you bring them together to achieve the extraordinary, and this book provides a field guide to the different motivations, behaviours and talents in your team to help you lead diverse groups more effectively. Focused on action over theory, the Spiral Dynamics model includes cutting-edge leadership practices, management systems, processes, procedures and techniques to help you bring about real-world results. The nature of change is consistent, but that doesn't make it any less enormous or complex to deal with. As a business leader, you are tasked with not only navigating change yourself, but also guiding others through the maze successfully. This book shows you how to shift your perspective, hone your focus and deliver what your people need by: Understanding the reasoning behind different perspectives. Helping people play off one another's strengths to achieve a shared goal. Adopting cutting-edge practices, processes and procedures for improvement. Taking action to re-connect an increasingly fragmented environment. The marketplace has gone truly global, workforces are increasingly diverse and companies are taking on powerful new social responsibilities. It's a lot to take in, let alone manage, but the responsibility of leadership is to gather disparate parts and make them into a whole. It's your job to turn anchors into rocket fuel, and motivate and inspire your team to the top. By digging to the core of each person, each culture and each problem, you uncover a roadmap to high performance; Spiral Dynamics in Action shows you how to guide your people through any changes and emerge stronger than before.

Richard Barrett, author of the best-selling book Liberating the Corporate Soul, presents his new thinking Based on his experience working with over 1,000 organizations in 32 countries on cultural transformation for the values-driven organization. He presents a whole system approach to cultural transformation, showing organizations how they can change their culture to become values-driven organizations that support their employees, their customers, their partners, their leaders, and ultimately drive effectiveness and profit.

Releasing the genius of an individual, an enterprise and a society is a central pre-occupation of the contemporary business environment. A fascinating approach to how we can begin to tackle this challenge is presented by the authors of Integral Polity. Integral spirituality, integral philosophy and the integral age, at an overall or holistic level of consciousness, has therefore become a strong enough idea to form the genesis of a movement over the course of the last half century. Taking as a starting point the ground-breaking work of the Trans4m Centre for Integral Development this book applies such an 'integral' notion to the realms of business, economics and enterprise. To be successful, an integral approach must recognise the nuances of its environment - an integral approach in India is different from that in Indonesia, or Iceland, and they may in fact complement rather than conflict. Therefore this book also provides a fascinating alignment of such 'integrality' with, and between different 'southern' and 'eastern', 'northern' and 'western' worlds. Using case studies ranging across the globe this review of a newly integral theory and practice provides a new lease of life to what may increasingly be perceived as the self-seeking, insulated and occasionally violent and corrupt, realm of the political.

This book gives an overview of ways to work as a management consultant, including relationships with clients, ethics, pricing, contracts and some basic tools for delivering consulting services. This book was written for those who want to work in this area, for existing consultants, and also for managers and buyers of management consulting services. Quotes from the book: "This is the book I wish I could have read myself about 30 years ago when I first started my career as a young management consultant." "When young people are asked about their dream job, management consulting is often high on the list." "... when I was asked by the managing partner of the consulting firm what kind of consultant I wanted to become, my reply was honest surprise: Are there really different kinds?!" "What is the most important skill for a leader or manager to master? I would say it is the decision-making process." "Perhaps the most important strategic decision in management consulting is how to price your services, both how much you charge and what for." "Yes, I claim that to understand the internal and interpersonal politics of any organization, is a necessary prerequisite for a good management consultant." "I am sure that many organisational problems are based more on politics than on policies..." "... it will draw significant resources away into internal disintegration and fights, rather than freeing the same energy for external opportunities and tasks."

"Something very ancient and very new is being presented here! Gary Stamper is bringing together many disciplines, much experience, fine scholarship, and good writing style too." -Richard Rohr, OFM, Center for Action and Contemplation, Albuquerque, New Mexico, and author of "Wild Man to Wise Man" and "Adam's Return" "Gary Stamper has done a masterful job of pulling together various integral and visionary shamanic approaches to assist the change that is greatly needed for not only men of all ages but also for the masculine that is ready to be activated within us all." -Linda Star Wolf, author of six books, including "Visionary Shamanism: Activating the Imaginal Cells of the Human Energy Field" "Awakening the New Masculine" is a brave, exciting and significant contribution to one of the most important aspects of our time- the birth of a New Sacred Masculine capable of being fiercely and tenderly protective of the world and human life." -Andrew Harvey, Author of "The Hope a Guide to Sacred Activism" "Awakening the New Masculine" is a bridge from the first wave of the mythopoetic men's movement of the last twenty-five years to what is only now beginning to emerge. Gary Stamper points the way to the second wave of men's work with humor, intelligence, and the kind of compassion that holds men accountable-daring, insisting, and giving them the tools they need to step up to a new way of being men. You're going to awaken to the real possibility of becoming the man you've always known you could be, stepping into the truth of who you are in your fullness, cultivating potentials that have called to you, bringing your full presence and awareness to every moment for yourself, your loved ones, and the planet.

Ken Wilber's revolutionary thinking is beginning to shift the orientation of Western culture. Wilber combines his knowledge as mystic, scientist, psychologist and philosopher to create comprehensive concepts for understanding our world and our place in it. This integral approach is much needed in a world torn by conflicts of religion, culture, and ideology. Lew Howard says, I wrote this book to make the work of Ken Wilber accessible to the average person. Wilber's integral understanding (which is an interlocking whole) is broken down into concepts that can be individually understood. These understandings result in an integral conception of the Kosmos. Wilber's insights revolutionized my spiritual practice and can do the same for you.

100+ Management Models is an essential resource for managers at all levels. It gives an overview of each of the most important business models in eight categories: sustainability, innovation, strategy, diversity, customers, human resources, benchmarking and leadership and analyses their strengths and weaknesses.
