The Builder's Sword Summary. Arthur Curie never expected to wind up in Hell. At least, not because he found an ancient sword in a pawnshop. To make matters worse, Hell isn't as he thought. It's a desolate wasteland under siege by an all-consuming void known as the Darkness. Now, he's trapped with no way home, a ragtag army of women, and a sword whose only power is to modify the abilities of those around him.

When Arthur defeated Mammon, he never expected Lucifer to awaken, and what's more, she's made Arthur an offer he can't refuse. Join her in the fight against the Darkness or face the consequences. On one hand, it's a good deal. On the other, well, it's Lucifer. Worse, she's not the only one who woke up. Wrath has broken free. Envy is insane. And Lust? Well, Lust is just looking for a big strong man to... well, you know. To Death. Still, if there's one thing Arthur's gotten good at, it's dealing with cranky Archangels. There's just one problem. Heaven's about to fall, and when it does, the Darkness's champion will march on Hell. Guess Arthur better fix his sword. Fast.

Classical mythology came west from Greece, bearing the thoughts, feelings, and distilled experiences of ancient peoples that have, in turn, been formed by the skilled hands of artists into tangible creations of beauty and significance. Before there were records to preserve significant events, these stories were passed down in tales and songs. Adapted and embellished by successive generations, they were later written down and used to create art from many different materials in different mediums. Within these stories and the creations they inspired was an impulse either to recover the secrets of something that had been lost or to create something new from the old material. Young examines nine legends-Perseus and Andromeda; Demeter and Persephone; Pyramus and Thisbe; Pygmalion and Galatea; Daedalus and Icarus; Atlanta and Hippomenes; Philemon and Baucis; Echo and Narcissus; and Pomona and Vertumnus-explaining the legends themselves and tracing their dissemination through centuries and civilizations and across various art forms. In Young's view, classical mythology, through expressing humanity's enthusiasms, visions, and talents, might well be considered the "skilled midwife" of human civilization, proof of our constant effort to possess life symbolically and express it through arts.

For the first time in millennia, the all-consuming Darkness has been pushed back. Thanks to Arthur and his ragtag army of women, there's finally a light at the end of the tunnel. Or there would have been if Mammon, Princess of Greed hadn't awakened. Powerful enough to level a town with the blink of an eye and ally to no one, Mammon has one goal and one goal only. To own everything in Hell, starting with Arthur and his friends. And if he can't stop her from taking over while fending off attacks from Hell's ruling class, well, let's just say that his chance to stop the Darkness will slip from slim to none.

Enter the Darkness. Kill Everyone. Save the World. When Arthur Curie learns of a chink in the Darkness's armor, he knows it's his chance to turn the tide in a millennia old conflict. There's just one problem. To take that chance, he'll have to risk his entire army, side with a former enemy, and defeat forces of Darkness far greater than he's ever faced before. But you know what they say, no guts, no glory, right?

The Final Battle is Here. When Arthur found a magic sword in a pawnshop, he never thought it would make him into the Builder of Legend and thrust him into the forefront of the fight with the Darkness. Now, on a mission only he can complete, Arthur and his girls will have to hold the lines against the Darkness's final assault while defeating the four horsemen, freeing God from captivity, and of course, confronting the Empress. Sure, the odds might be stacked against him, but if there's anyone who can do it, it's the penniless orphan turned King of Heaven and Hell.

Arthur never expected to wind up in Hell. At least, not because he found an ancient sword in a pawnshop. To make matters worse, Hell isn't as he thought. It's a desolate wasteland under siege by an all-consuming void known as the Darkness. Now, he's trapped with no way home, a ragtag army of women, and a sword whose only power is to modify the abilities of those around him. Not exactly winning odds. Worse, if the Darkness isn't stopped, not only will it devour Hell, but Earth will be next on the menu.

After Dred laid waste to Heaven, defeated Lucifer, and kidnapped Gabriella, Arthur will do anything to stop him, even if it means teaming up with Hell's greatest enemy. Armed with a sword more powerful than ever, Arthur has one chance to rebuild Heaven, forge an alliance between the angels and demons, and find the Holy Grail. If he succeeds, he may just have the power he needs to defeat Dred and rescue Gabriella, but if he fails, well, at least the convenience store is still hiring.

Hey, it’s your friendly neighborhood gamer girl, Annie. So yeah, I almost kinda sorta stopped my bro from killing all of the werewolf nobles with his crazy blood ritual. Unfortunately for everyone, he missed one, and now wannabe werewolf king Alabaster is trying to avenge his people by going on the kind of killing spree you'd see in an eighties B-grade horror flick. The only way to stop him is to seat Justin Bailey on the throne. There's just one tiny problem. While he’s a swell guy, I have more power in my pinkie than he does in his whole body. Still, I think I can pull it off, but only if I’m willing to throw Justin to the wolves.

What would you do if an evil empress was enslaving the galaxy? Well, kick her ass, free the slaves, and roar defiantly. Well, you would if you were a dragon. When David Briggs beats the final level of Star Conqueror, that's exactly what happens to him. Gaining the power to become a fire-breathing dragon and recruited by alien freedom fighters, he has one chance to save the galaxy. There's just one problem. To stop her, he will have to break the mind control of a million super-hot female warriors, storm a hundred planets, and fight through armies of mechs. Then again, you know what they say, if you want to save the world, you better bring a dragon. Please Note: This novel contains a harem. You have been warned.

When Aaron and his friends got sucked into the virtual reality game World of Ruul, they quickly realized the only way out would be to acquire all eight soulstones and beat the game. Unfortunately, they’ve somehow managed to incur the wrath of the Skeleton King, an ancient warrior whose vengeance can only be quenched by blood and death. Now, if they want to survive long enough to find those soulstones, they'll have to find a way to stop him.
