When young Arthur of Camelot accidentally time-travels to the 21st century and Googles himself, he discovers the not-so-happily ever after in store for him once he pulls the sword from the stone. Yes, he'll go from squire to sovereign basically overnight, but he'll also lose the love of his life to his best friend and eventually die in battle. What's a once-and-future king to do? Easy: stay in the future, where he'll actually have a future-and join the football team instead. Now, with the help of the great wizard Merlin, modern-day gamer-geeks Sophie and Stu find themselves in a race against time to get that sword pulled from the stone and the stubborn soon-to-be-king Arthur back to the past where he belongs. Complicating the plan? Lady Morgana-Arthur's sister and greatest enemy-has traveled to the future as well, determined to take Arthur out and seize the throne. Can Sophie and Stu use their gaming abilities to defeat the evil Morgana and set the timeline right? With the very existence of their friendship, their families, and the world as they know it (including pepperoni pizza!) at stake, they'll use every skill, power-up, and cheat code they know in their quest to save the day.

"Imagine The Sword in the Stone with a dash of Freaky Friday and a pinch of World of Warcraft--this funny, fast-paced adventure is chicken soup for the geek's soul." -- Zack Clark and Nick Eliopulos, authors of The Adventurers Guild series When young Arthur of Camelot accidentally time-travels to the 21st century and Googles himself, he discovers the not-so-happily ever after in store for him once he pulls the sword from the stone. Yes, he'll go from squire to sovereign basically overnight, but he'll also lose the love of his life to his best friend and eventually die in battle. What's a once-and-future king to do? Sophie must embark on her first official mission as a companion in the action-packed sequel to The Camelot Code! In the second book in the Camelot Code series, Sophie is now tasked with protecting the spirit of King Arthur throughout the ages, so it's no surprise when she and Stu get sucked in to another Arthurian adventure: get the Holy Grail into King Arthur's hands so he can drink from it and recover from a deadly illness. It's not easy, especially since Merlin's apprentice, Emrys, has accidentally turned the Grail into a gassy, fire-breathing baby dragon. And Merlin is the only one who can change it back. But Merlin's on spring break in modern-day Las Vegas (at the Excalibur, of course). And Sophie's super-popular (not to mention super-annoying) future stepsister, Ashley, has invited herself along for the ride. From sneaking a baby dragon through airport security to the ultimate showdown with the sorceress Morgana, deep in the land of Faerie, this new Camelot Code adventure will test not only the two geeks' courage, but also their very friendship. Spring break just got epic!

What happens in Vegas, stays in Vegas. Even adventures that include a gassy baby dragon! Sophie is now a Camelot Companion, tasked with protecting the spirit of King Arthur throughout the ages, so it's no surprise when she and Stu get sucked in to another Arthurian adventure. This time, the two best friends must get the Holy Grail into King Arthur's hands so he can drink from it and recover from a deadly illness. Simple, right? Not so much. Because Merlin's apprentice, Emrys, has turned the Grail into a flatulent baby dragon, and Merlin is the only person who can change it back. But Merlin happens to be on spring break in modern-day Las Vegas (at the Excalibur, of course). And Sophie's uber-popular future stepsister, Ashley, is along for the ride as well, with her own opinions on how the mission should go. As Morgana closes in, the girls and Stu team up with Emrys and a druid named Nimue to keep the Grail from falling into the wrong hands-a journey that will take them all the way to Fairyland itself and result in the ultimate showdown between good and evil. Don't miss a single moment of the fun in this sequel to The Camelot Code #1: The Once and Future Geek!

"AMAZON #1 BESTSELLING AUTHOR" ONE OF THE BEST NEW VOICES IN THE ACTION THRILLER GENRE David Archer is back with a vengeance with his newest hero, Noah Wolf. After fans raved about his debut series, The Sam Prichard Novels, Archer now is about to back even harder. People are already throwing out names like Mitch Rapp and Alex Cross, but don't take my word for it. See what all the fuss is about before Archer becomes a household name! After witnessing the murder-suicide of his parents as a child, Noah suffers from a form of PTSD that has left him without emotion, without a conscience and without the ability to function as a normal human being. With the help of childhood friends, he learns to watch others around him and mimic their behaviors, in order to conceal the fact that his mind operates more like a computer that he has spent years programming. That program is what allows Noah to pass himself off as normal, by establishing parameters of right and wrong that are completely inviolable to him. As a young adult, Noah finds structure in the U.S. Army, and becomes an excellent and exemplary soldier, but when his self-imposed programming is put to the test by the murderous acts of the superior officer, Noah finds himself quickly made expendable, charged with crimes he did not commit and facing the possibility of execution. Without any reasonable hope for a reprieve, Noah's logic-based mind accepts his fate. Sometimes, though, things are not all as they seem to be, and Noah is offered one chance to save himself. It was his disability, his lack of emotion, that made him the soldier he had become. Now, an ultrasecret organization known as E & E wants Noah's talents, offering him a chance to survive... As the most deadly assassin the world has ever known."

All fourteen-year-old gamer girl Sophie Sawyer wants to do is defeat Morgan Le Fay in her favorite Arthurian videogame. She has no idea the secret code sent via text message is actually a magical spell that will send her back in time to meet up with a real life King Arthur instead. Of course Arthur's not king yet--the

hasn't pulled the sword from the stone--and he has no idea of his illustrious destiny. And when a twist of fate sends him forward in time--to modern day high school--history is suddenly in jeopardy. Even more so when Arthur Googles himself and realizes what lies in store for him if he returns to his own time--and decides he'd rather try out for the football team instead. Now Sophie and her best friend Stuart find themselves in a race against time--forced to use their 21st century wits to keep history on track, battle a real-life version of their favorite videogame villain, and get the once and future king back where he belongs. Or the world, as they know it, may no longer exist.

On the eve of the Quest for the Holy Grail, every adult in King Arthur's castle falls into an enchanted sleep. The future of Camelot rests on the shoulders of fourteen-year-old squire Gerard, who has dreamed of becoming a Knight of the Round Table his whole life. With the help of Newt, the stable boy, and Ailis, a young maidservant, he must face terrible dangers, including a monstrous bridge troll, a wise and scheming dragon -- and finally, a dark, powerful force that will stop at nothing to destroy King Arthur, the knights, and the entire realm of Camelot.

About the series: Epic battles, thrilling quests and forbidden love combine in the medieval story of the boy who would be king. A retelling of the Arthurian legends, adapted and illustrated to introduce children aged 7+ to classic folklore. Great to share aloud, just like the original tales. All titles have been leveled for classroom use, including GRLs. When two boys save an old man from robbers, they learn of a competition in Londinium to decide the next king of Britain. The elder, Kay, is determined to prove himself worthy as a knight or a king. The younger is Arthur, a farm boy through and through - until he sees the sword in the stone.

What if King Arthur was more than a myth? On a starlit summer's night in the Welsh mountains, an old man is torn from sleep as an ancient prophecy unfolds. On the other side of the Atlantic, an American antiques dealer lies dying on the floor of his shop, blood ebbing from a fatal stab wound. In San Francisco, Mitzi Fallon begins her new job as lead investigator for the FBI's Historical, Religious and Unsolved Crimes Unit. When it emerges that a priceless Celtic relic has been stolen from the murdered antiques dealer, Mitzi finds herself drawn into a mystery that reaches from the heart of the modern US government back to a man once dismissed as myth: King Arthur. Sam Christer, author of the international smash hit, *The Stonehenge Legacy*, returns with his most dramatic, race-against-time thriller yet. Packed with heart-stopping, addictive suspense and historical intrigue, *The Camelot Code* is a brand new thriller that is perfect for fans of Dan Brown and Simon Toyne. The King Arthur legend is about to come to life...
