Geek Love is a novel by Katherine Dunn, published completely by Alfred A. Knopf in 1989. Dunn published parts of the novel in Mississippi Mud Book of Days and Looking Glass Bookstore Review. It was a finalist for the National Book Award. The novel is the story of a traveling carnival run by Aloysius "Al" Binewski and his wife "Crystal" Lil, and their children, seen through the eyes of their daughter Olympia who writes the family history for her daughter Miranda. When the business begins to fail,

A fun, quirky A to Z introduction to all things geeky runs the gamut from Dungeons and Dragons to super heroes; from wizards to warp drive; from Middle Earth to galaxies far, far away. Cool, colorful illustrations and snappy, rhyming text introduce geeks-in-training to their future favorite things. Insider Star Trek references, superpower basics, nods to science fiction classics and more will entertain little ones and the grownups who can't wait to take them to their first Comic Con. A-Z themed spreads are simple, funny and sweet—providing the perfect beginner course in geek iconography.

Nerdy Babies is a new series that will ignite curiosity in even the youngest readers and encourage them to ask questions and explore the world around them. In Nerdy Babies: Ocean, follow our intrepid infants into the watery depths. Check out animals, plants, and fish that live in the ocean. Plus, learn about the unique ecosystem in this simple text written in question and answer format. With bright artwork by Emmy Kastner, this will be a book that the very littlest nerds will want to return to again and again. Stay curious. There's more to learn about everything!

There's a TARDIS cookie jar in our kitchen. A Picard air freshener in our car. And we won't even mention Harry Potter in the bathroom. We're geeks and proud of it! But is there nothing for baby? Inconceivable! Introducing 100 First Words for Little Geeks, a deliciously nerdy primer for kids learning their first words! Forget apple and dog. Little geeks are ready for holy grail,warp core, and intergalactic catastrophe (okay, forget that last one, but they'll learn tribble and that's about the same thing). Packed with hilarious illustrations and 100 words every geek baby should know (before any others, of course), 100 First Words for Little Geeks is the perfect board book for geek families everywhere. Great Scott!

The ultimate book of baby names for comic book nerds, sci-fi fans and more—with the meanings and stories behind more than 1,000 names! Having trouble finding a baby name that celebrates your favorite fandom? Whether you want your child’s name to stand out in a crowd or fit in on the playground, Naming Your Little Geek is here to save the day! This ultimate guidebook is complete with every name a geek could want to give their baby—from Anakin and Frodo to Indiana and Clark; and from Gwen and Wanda to Buffy and Xena—plus their meanings, and a list of all the legends who have borne them. Naming Your Little Geek covers everything from comic book superheroes to role-playing game icons, Starfleet officers to sword and sorcery legends with characters who have appeared on film and TV, in novels and comic books, on the tabletop, and beyond. With nearly 1,100 names referencing more than 4,400 characters from over 1,800 unique sources, it's the perfect resource for parents naming a child or anyone looking for a super cool and meaningful new name.

Explore the colorful world of pop culture with this perfect introduction to all things geek! There are tons of colors—and playful references—to be found inside this geeky board book. With nods to science fiction classics and fantasy basics, this book is complete with bright, full-color illustrations and a helpful reference page at the end. Geeky Baby's Guide to Colors is sure to delight any young fan and be the perfect gift for geeky families and parents of all kinds.

An alphabet book all about geekdom. On board pages. Suggested level: junior.

A National Book Award Finalist: This 'wonderfully descriptive' novel from an author with a 'tremendous imagination' tells the unforgettable story of the Binewskis, a carny family whose mater- and paterfamilias have bred their own exhibit of human oddities. (The New York Times Book Review) The Binewskis arex a circus-geek family whose matriarch and patriarch have bred their own exhibit of human oddities (with the help of amphetamine, arsenic, and radioisotopes). Their offspring include Arturo the Aquaboy, who has flippers for limbs and a megalomaniac ambition worthy of Genghis Khan, Iphy and Ely, the lissome Siamese twins, albino hunchback Oly, and the outwardly normal Chick, whose mysterious gifts make him the family's most precious - and dangerous - asset. As the Binewskis take their act across the backwaters of the US, inspiring fanatical devotion and murderous revulsion; as its members conduct their own Machiavellian version of sibling rivalry, Geek Love throws its sulfurous light on our notions of the freakish and the normal, the beautiful and the ugly, the holy and the obscene. Family values will never be the same. Praise for Geek Love "If Flannery O'Connor had consumed vast quantities of LSD, she might have written like this" Literary Review "The most romantic novel about love and family I have read. It made me ashamed to be so utterly normal" Terry Gilliam "I felt electrocuted when I read that first page with Crystal Lil and her freak brood. I stood there in the bookstore and my jaw came unhinged. No book I've read, before or since, has given me that specific jolt" Karen Russell, author of Swamplandia

“My name is Harriet Manners, and I am still a geek.” MODEL MISFIT is the sequel to award-winning No. 1 UK debut GEEK GIRL.

“My name is Harriet Manners, and I am a geek.” The first book in the bestselling, award-winning GEEK GIRL series!

Fans of the New York Times bestselling Geek Dad and The Geek Dad's Guide to Weekend Fun will flock to the 3.0 version, The Geek Dad Book for Aspiring Mad Scientists. As Ken Denmead explains, most kids lack an understanding of science and an awareness of how it influences our everyday lives. What kids today need is a fun way to learn scientific concepts. This book will help scientists-in-the-making discover how our world works with creative project ideas, including how to: Grow crystals to power your Stargate and set your room aglow Extract your own DNA and decode your genes Build a MacGyver radio from nothing but cast-off electrical and office supplies Chock-full of instructional illustrations throughout, The Geek Dad Book for Aspiring Mad Scientists puts the fun back in science.
