A myth is a belief or a story meant as an attempt to explain a common social experience that may be difficult to grasp. A myth usually may not have any basis in truth, fact, or reality. I hear a lot of myths from sex addicts and porn users having to do with their pornography, and so one of the interventions involves education and reeducation.

What brings us real and lasting happiness?

Although just about every marketing firm, self-help guru, and man on the street has an answer, very few, if any, understand true happiness. It doesn't come from power, pleasure, popularity, or possessions. So what is happiness and how do we find it? In How to Be Happy, author Matt Fradd relies on the help of St. Thomas Aquinas to show what will—and what won't!—bring us happiness in this life. By making the thought of Aquinas utterly accessible for today, How to Be Happy is an invaluable guide to a good life.

Professor Gail Dines has written about and researched the porn industry for over two decades.

She attends industry conferences, interviews producers and performers, and speaks to hundreds of men and women each year about their experience with porn. Students and educators describe her work as "life changing." In Pornland—the culmination of her life's work—Dines takes an unflinching look at porn and its affect on our lives. Astonishingly, the average age of first viewing porn is now 11.5 years for boys, and with the advent of the Internet, it's no surprise that young people are consuming more porn than ever. But, as Dines shows, today's porn is strikingly different from yesterday's Playboy. As porn culture has become absorbed into pop culture, a new wave of entrepreneurs are creating porn that is even more hard-core, violent, sexist, and racist. To differentiate their products in a glutted market, producers have created profitable niche products—like teen sex, torture porn, and gonzo—in order to entice a generation of desensitized users. Going from the backstreets to Wall Street, Dines traces the extensive money trail behind this multibillion-dollar industry—one that reaps more profits than the film and music industries combined. Like Big Tobacco—with its powerful lobbying groups and sophisticated business practices—porn companies don't simply sell products. Rather they influence legislators, partner with mainstream media, and develop new technologies like streaming video for cell phones. Proving that this assembly line of content is actually limiting our sexual freedom, Dines argues that porn's omnipresence has become a public health concern we can no longer ignore.

The unprecedented mainstreaming of the global pornography industry is transforming the sexual politics of intimate and public life, popularising new forms of hardcore misogyny, and strongly contributing to the sexualisation of children. Yet challenges to the pornography industry continue to be dismissed as uncool, anti-sex and moral panics. With contributions from leading world experts and activists, Big Porn Inc offers a cutting edge exposé of the hidden realities of a multi-billion dollar global industry that promotes itself as a fashionable life-style choice. Unmasking the lies behind the selling of porn as 'just a bit of fun' this book reveals the shocking truths of an industry that trades in violence, crime and degradation. This fearless book will change the way you think about pornography forever. Contributors include: Abigail Bray; Anna van Heeswijk; Anne Mayne; Asja Armanda; Betty McLellan; Caroline Norma; Caroline Taylor; Catharine A MacKinnon; Christopher Kendall; Chyng Sun; Diana Russell; Diane L Rosenfeld; Gail Dines; Helen Pringle; Hiroshi Nakasatomi; Jeffrey Masson; Julia Long; Linda Thompson; Maggie Hamilton; Matt McCormack Evans.; Meagan Tyler; Melinda Liszewski; Melinda Tankard Reist; Melissa Farley; Natalie Nenadic; Nina Funnell; Renate Klein; Robert Jensen; Robi Sonderegger; Ruchira Gupta; Sheila Jeffreys and Susan Hawthorne.

Good men don't need more reasons why it's wrong to use women online, in their imagination, or in reality. What they need are effective strategies to win daily battles and to obtain lasting freedom and victory in the war against lust. Forged is a 33-day exercise designed to purify, heal, and strengthen a man, gradually replacing old vices with new virtues. Each day offers a unique weapon that belongs in every man's arsenal against the world, the flesh, and the devil. After completing the 33 days, a man will be well equipped for the battles ahead. Readers will also receive a free 3-minute video each day from more than 30 presenters, including Fr. Mike Schmitz. Fr. Jacques Philipe, Sister Miriam James, Jeff Cavins, Christopher West, and others. Because brotherhood is an essential component of the experience of Forged, this book is sold in pairs. Get two copies, and find a brother to walk this journey with you towards freedom! The program is also ideal for fathers to do with their teenage sons.

"Strips porn of its culture-war claptrap . . . Pornified may stand as a Kinsey Report for our time."!San Francisco Chronicle Porn in America is everywhere—not just in cybersex and Playboy but in popular video games, advice columns, and reality television shows, and on the bestseller lists. Even more striking, as porn has become affordable, accessible, and anonymous, it has become increasingly acceptable—and a big part of the personal lives of many men and women. In this controversial and critically acclaimed book, Pamela Paul argues that as porn becomes more pervasive, it is destroying our marriages and families as well as distorting our children's ideas of sex and sexuality. Based on more than one hundred interviews and a nationally representative poll, Pornified exposes how porn has infiltrated our lives, from the wife agonizing over the late-night hours her husband spends on porn Web sites to the parents stunned to learn their twelve-year-old son has seen a hardcore porn film. Pornified is an insightful, shocking, and important investigation into the costs and consequences of pornography for our families and our culture.

The Pornography Industry: What Everyone Needs to Know addresses key issues and concerns about a controversial and very hot topic. Written for a curious and intelligent audience interested in the foundations and developments of the industry, the book touches on the history of pornography, landmark legal cases, the latest medical research, and ongoing political debates.

Pornography is powerful. Our contemporary culture as been pornified, and it shapes our assumptions about identity, sexuality, the value of women and the nature of relationships. Countless Christian men struggle with the addictive power of porn. But common spiritual approaches of more prayer and accountability groups are often of limited help. In this book neuroscientist and researcher William Struthers explains how pornography affects the male brain and what we can do about it. Because we are embodied beings, viewing pornography changes how the brain works, how we form memories and make attachments. By better understanding the biological realities of our sexual development, we can cultivate healthier sexual perspectives and interpersonal relationships. Struthers exposes false assumptions and casts a vision for a redeemed masculinity, showing how our sexual longings can actually propel us toward sanctification and holiness in our bodies. With insights for both married and single men alike, this book offers hope for freedom from pornography.

Which would surprise you more: that nearly nine out of ten young college men use porn or that more than one in five 12-year-old girls do? Porn has broken out of seedy backrooms and into the mainstream largely thanks to the Internet, which allows millions to access an unlimited (and mostly free) supply of porn and cybersex from the convenience of their own homes. And that's what we do. Because porn is fun. Like...really, really fun! In fact, Internet porn is unnaturally fun, providing far more stimulating variety than we would ever encounter in real life. These sights trigger powerful neurological reactions, and over time consistent porn users undergo actual brain changes similar to those seen in alcoholics and gambling addicts, eventually developing one or more of many common and unpleasant symptoms such as: Porn-induced erectile dysfunction (PIED) and reduced libido for real partners Difficulty reaching orgasm with a partner Cravings for and emotional reliance on porn Escalation to extreme sexual preferences or fetishes as tolerance increases and regular sex becomes boring Emotional numbness and difficulty forming relationships Social anxiety, depression, apathy, and "brainfog" Sexual orientation obsessive compulsive disorder This book is not a moral or religious attack on pornography. This book is a scientific exploration of how Internet porn affects us, an examination of how it has influenced our culture, and a guide for those who would like to quit the porn habit and heal themselves of porn-induced symptoms. This is the story of people who have acted to retake control of their lives and restore themselves to full sexual and emotional function. This is my story. This may be your story. -Noah B.E. Church

The internet has made access to sexually explicit content radically more easy than ever before. This book is essential reading for those who are troubled by their own relationship with pornography, and for those who want to understand the world we now live in. Republished with extensive revisions in December 2017.
