When Tina stumbled into that werewolf strip club, she never expected to walk out with the powers of a fertility goddess, but now that she has, well... she made a list. Step 1: Get a handle on her unruly new magic. Step 2: Convince the five shifter princes fighting over her that sharing is caring. Step 3: Experience sex the way only a fertility goddess can. There's just one more thing. Step 4: Try not to die when bitchy priestesses come out of the woodwork to take her new magic for themselves.

One date. One wedding. One enormous lie. Ivy If Susan wasn't so uptight, none of this would be a problem. It wouldn't. Not really. As it is, she's the biggest Bridezilla I've ever seen, which

is why I'm stuck interviewing actors to play my boyfriend at her upcoming nuptials. The guy I choose is tall, dark, and...nerdy. Like, ultra-nerdy. He plays video games and reads comics, and he's seen more anime than me, which is no easy task. Lincoln has a secret, though. It's something beyond the normal nerdiness. It's something that he doesn't want anyone to know about. I want to know about it, though. What is this guy hiding? And why do I have a feeling that it'll change everything? Lincoln When I started running my fake date service, I didn't expect to meet someone like Ivy. I didn't expect to want more than just a single date. I couldn't have possibly planned any of this. That's exactly what's happening, though. Just one date, and my inner-tiger lets me know that yeah, she's our mate. Unfortunately for me, she doesn't know I'm a tiger shifter, and she doesn't know I think she's my one true love. Is Ivy strong enough to handle the truth? Am I? The Tiger's Fake Date is book three in the SHIFTERS OF RAWR COUNTY series; however, it can be enjoyed as a standalone story. It features a snarky human heroine and a tiger who doesn't believe he's good enough for love. Expect spicy scenes and a happily-ever-after.

"Another scintillating collection of brilliant problems and paradoxes by the most entertaining logician and set theorist who ever lived." — Martin Gardner. Inspired by the classic tale of a prisoner's dilemma, these whimsically themed challenges involve paradoxes about probability, time, and change; metapuzzles; and self-referentiality. Nineteen chapters advance in difficulty from relatively simple to highly complex.
