This book provides comprehensive information, both for clinicians and scientists, on the basic mechanisms, clinical features, and therapeutic approaches to epilepsy as an inflammatory disease. Inflammation has been for many years considered as an etiologic player (and a therapeutic target) for a specific group of epilepsies. However, it turns out that this concept underestimated the impact of inflammation in seizure disorders. Many accepted therapies for non-inflammatory epilepsies act in part as an inflammatory drug. The CNS actively responds to acute immune challenges by altering body temperature, stimulating the HPA axis, as well as up- and down-regulating specific sympathetic pathways.

This volume explores how the traditional academic disciplines of linguistics, translation, literature and cultural studies can contribute to, or be integrated into, the teaching of a foreign language by means of innovative methodologies, techniques and

instruments. The book begins with a selection of essays on applied linguistics that share some significant findings in the context of second or foreign language acquisition. It then examines the ways in which linguistics, translation theory, literature and cultural studies are brought into the foreign language classroom not just as objects of study but also as vehicles for language-learning. By presenting studies on four main foreign languages, English, Spanish, French and German, the collection offers, to the foreign language profession, an opportunity for the sharing and comparison of strategies across languages at both the secondary and higher education level. The text is a valuable resource for language teachers with a more philologically-oriented background who would like to learn how to apply their research knowledge and experience to the design and implementation of new methodological approaches.

"In *Populism's Power*, Laura Grattan looks at how populism cultivates the aspirations of ordinary people to exercise power over their everyday lives and their collective fate. She considers a range of populist moments and reopens the idea that grassroots movements can play a key role in democratizing power and politics in America"--

LaMar Herndon considers a group of leaders often overlooked and occasionally denigrated—the bivocational pastor. Constructing Blue Collar Leaders in a White Collar World integrates important theoretical leadership concepts with spiritual and practical realities. Dr. Herndon explores important topics such as trends and issues facing the global church and its leaders, leadership models, values and ethics, character and integrity, cultural effects, creativity and innovation, reverse mentoring, and strategic planning. This book is a profoundly honest hands-on guide to what constitutes a true leader serving as a bivocational minister." -Dr. Gary Oster Regent University School of Business & Leadership, Virginia Beach, VA "Down through my thirty plus years of education, ministry, and leadership I have read many books on the subject of leadership. Some have challenged me and inspired me, but none have done so at the level of Constructing Blue Collar Leaders in a White Collar World. As a State Minister, I work with many bivocational and blue collar Pastors. I will be using Dr. Herndon's book as a primary resource to assist me in working with those Pastors in challenging and inspiring them in their leadership development." -Dr. Darryl Allen State Minister KY Church of God Ministries, Adjunct Professor at Nazarene Bible College & Mid-America Christian University "It [Constructing Blue-Collar Leaders in a White-Collar World] is an excellent presentation of

leadership issues every pastor needs to understand to some degree. The chapter on "Values and Ethics" is worth the price of the book. Thanks for sharing the results of your many hours of study and hard work."

-Ray Gilder National Coordinator Bivocational and Small Church Leadership Network, Bivocational Small Church Ministries Specialist Tennessee Baptist Convention "Dr. LaMar Herndon presents leadership from a very down to earth and practical approach. This book seeks to help the bivocational church leader be effective while balancing these two worlds. I believe this book needs to be in every pastor, minister, and leaders library; whether bivocational or not." -Rev. Jewel D. Williams, M.R.E. The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The

volume is divided into two large sections. Part I, which covers Tomes I-V, is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II, which covers Tomes VI-VII, is dedicated to shorter, individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible, and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.

The third edition of *Governance and Policy in Sport Organizations* introduces readers to the power and politics of sport organizations. It explores the managerial activities essential to governance and policy development, and it looks at the structure and function of organizations like those with which readers will interact in the workplace. It also demonstrates where the power lies in an organization or industry segment and how individual sport organizations fit in to the greater industry. Current policy issues and the ethical questions they raise are also addressed. Real-world

case studies demonstrate the types of dilemmas that sport managers face every day. In addition, professional administrators from a wide variety of sport organizations contribute their perspectives, giving readers a glimpse into the real concerns of sport professionals and the impact of governance and policy on their jobs. The book's practical foundations, readability, and logical organization all help readers to understand the big picture of the sport industry and their place in it as future sport managers. New to the third edition is a chapter on individual professional sport, which explores how this industry segment differs from professional sport leagues. In addition, contributions from Thierry Zintz, from the Universite catholique de Louvain, offer insights into European sport organizations.

Social Work in Juvenile and Criminal Justice Systems sets the standard of care for mental health treatment and the delivery of social services to crime victims, juvenile and adult offenders, and their families. The chapters, all authored by experts in the field and all committed to the mission of social justice, are written with the clear understanding that we cannot study criminal justice in a vacuum. Therefore, a major focus of the book is on the renewed growing sense of the profession's obligation to social justice. Each chapter interconnects with the various components of juvenile and criminal

justice. Another prominent aspect of the book is that it is strength-based. It views those involved in the criminal and juvenile justice systems as individuals rather than inmates or criminals, each with unique positive talents and abilities. The book is divided into four sections. The first section discusses forensic social work, including crime and delinquency theories, trends, and ethical issues. The second section prepares social workers for practice in correctional institutions and explores crisis intervention with victims of violence, reentry of adult offenders in society, and aging in prison. The third section covers assessment and intervention in child sexual abuse, mental health and substance abuse, interpersonal violence and prevention, child welfare and juvenile justice. The final section presents an overview on social work in the twenty-first century, which includes restorative justice and the justice system, new ways of delivering justice, domestic violence, neighborhood revitalization, race and ethnicity, and social work practice with LGBTQ offenders. This book will be the best single source on social work in criminal justice settings and will prove to be an invaluable resource for the many professionals who have responsibility for formulating and carrying out the mandates of the criminal justice system.

supervision process for graduate and post-graduate counselors provides a host of benefits for the counseling student, post-graduate intern, and supervisor. The counselor in training is able to experientially integrate theory with practice through the use of different modalities that provide reflection and insight into their work with clients. Additionally, the use of techniques and interventions for play therapy allows a secure and strong supervisory relationship, which allows the counselor in training to explore personal and professional goals; verbalize and conceptualize client issues, goals, and effective interventions; and develop counselor-client relationships that allow the client to progress during the therapeutic process. However, play therapy techniques and interventions are not often incorporated into the supervision process unless the clinician is a registered play therapist being supervised by a registered play therapist supervisor.
