Count Adam Zamoyski in house arrest

There are many Jews who only travel to Poland on roots trips or to visit Holocaust sites, while many Israelis love Poland for its great food, picturesque countryside and historic cities.

Adam Zamoyski first wrote his history of Poland two years before the collapse of the Soviet Union. This substantially revised and updated edition sets the Soviet era in the context of the rise, fall and remarkable rebirth of an indomitable nation. In 1797, Russia, Prussia and Austria divided Poland among themselves, rewriting Polish history to show that they had brought much-needed civilisation to a primitive

backwater. But the country they wiped off the map had been one of Europe's largest and most richly varied, born of diverse cultural traditions and one of the boldest constitutional experiments ever attempted. Its destruction ultimately led to two world wars and the Cold War. Zamoyski's fully revised history of Poland looks back over a thousand years of turmoil and triumph, chronicling how Poland has been restored at last to its rightful place in Europe.

Biografi om Polens sidste konge fra 1764-1795, Stanisław August Poniatowski (1732-1798)

Mr. Zamoyski believes there is a need for a new synthesis of Poland's past because of the heavily nationalist and political

coloring of existing works. He strives to place Polish history more squarely in its European context, and he pays special attention to developments that had repercussions beyond the boundaries of the country.

By the beginning of 1941, there was a fully fledged Polish Air Force operating alongside the RAF. With 14 squadrons and support services, it was larger than the air forces of the Free French, Dutch, Belgians and all the other European Allies operating from Britain combined. Some 17,000 men and women passed through the ranks of the Polish Air Force while it was stationed on British soil in World War II. They not

only played a crucial role in the Battle of Britain in 1940, they also contributed significantly to the Allied war effort in the air. All in all, the Polish Air Force shot down 745 enemy aircraft, with another 175 unconfirmed, destroyed a further 25 on the ground and damaged 259. They dropped thousands of bombs, laid hundreds of mines, flew a total of 102,486 sorties, notching up 290,895 operational flying hours, and took part in virtually every type of RAF operation. They achieved this at a cost of 1,973 killed and 1,388 wounded. They won 342 British gallantry awards as well as 15 American ones.

Napoleon dominated nearly all of Europe by 1810, largely succeeding in his aim to reign over the civilized world. But

Britain eluded him. To conquer the island nation, he needed Russia's Tsar Alexander's help. The Tsar refused, and Napoleon vowed to teach him a lesson by intimidation and force. The ensuing invasion of Russia, during the frigid winter of 1812, would mark the beginning of the end of Napoleon's empire. Although his army captured Moscow after a brutal march deep into hostile territory, it was a hollow victory for the demoralized troops. Napoleon's men were eventually turned back, and their defeat was a momentous turning point in world affairs. Dramatic, insightful, and enormously absorbing, *Moscow 1812* is a masterful work of history.

This is the first comprehensive English-language guide to the historical sites of Poland. It contains an alphabetical listing of 1,161 towns and villages, and covers more than 8,000 castles, churches, palaces, monuments and museums. Each object of interest is briefly described, with illuminating comments on its cultural or historical significance, and furnished with relevant dates and names of artists and patrons. A short introduction is designed to fix in the newcomer's mind the main events and currents of Poland's historical and cultural Odyssey. The glossary, list of rulers and genealogical tables provide indispensable points of reference, and a set of maps and plans makes it easy to
