Stop and Search and Police Legitimacy Ben Bradford
2017-01-06 'Stop and search' is a form of police-citizen interaction that is confrontational, often stressful for those involved, and potentially damaging to the relationship between police and public. The extent to which police officers use their power to stop and perhaps search members of the public is intimately linked not only to the present-day context of policing but also to longer term patterns in the aims of policing, the ends used to achieve them, and ultimately to the ideology of policing in England and Wales. Stop and Search and Police Legitimacy draws upon both police-administrative and survey-based data to examine what has for many years been one of the most highly charged and contested aspects of police practice. Taking a decidedly quantitative, empirical, approach, this book examines the patterning of police stops over social and geographic space, the problem of ethnic disproportionality, and the evidence concerning how people experience and react to being stopped by police –

particularly in relation to issues of fairness, legitimacy, cooperation and compliance. A further important concern is the extent to which this form of police practice shapes and re-shapes the identities of those affected by it. This ground-breaking study is a comprehensive resource for students and scholars in the fields of criminology, sociology, social policy, ethnic and racial studies and human rights. It will also be of special interest to police leaders and policy-makers.

In Search of a Love Story Rachel Schurig 2012-05-09 Emily Donovan doesn't have a romantic bone in her body. At least, that's what her friends Ryan and Ashley keep telling her. They're convinced her bad luck with men is

directly related to her life-long lack of interest in all things romantic. When Emily's latest relationship crashes and burns, she decides to go along with her friends' plans for a romance research project. Sure, the idea that she'll have better luck if she learns about the great romances of literature and film seems a little silly, but Emily figures it can't hurt. In no time at all, Emily finds herself buried under a mountain of romance novels, chick flicks, and sappy love songs, hopeful that her hard work will pay off with true love. When she meets Greg, Ashley and Ryan are convinced she's found prince charming—after all, he's rich, handsome, and totally into Emily. What more could she want? And why does it seem that her friend Elliot isn't exactly happy for her? Faced with misunderstandings, miscommunications, and a seemingly endless string of missteps, she is nevertheless determined to give true love a try. In doing so, Emily will eventually find that true romance, the kind that lasts, has little to do with stereotypes or clichés, and everything to do with finding out what's in her own heart.

Where's Spidey? Marvel Entertainment International Ltd 2019-11

In Search of Mary Seacole Helen Rappaport 2022-02-17 In *In Search of Mary Seacole* is a superb and revealing biography that explores her remarkable achievements and unique status as an icon of the 19th century, but also corrects some of the myths that have grown around her life and career. Having been raised in Jamaica and worked in Panama, Mary Seacole came to England in the 1850s and volunteered to help out during the Crimean War. When her services were turned down, she financed her own expedition to Balaclava, where she earned her reputation as a nurse and for her compassion. Popularly

known as 'Mother Seacole', she was the most famous Black celebrity of her generation – an extraordinary achievement in Victorian Britain. She regularly mixed with illustrious royal and military patrons and they, along with grateful war veterans, helped her recover financially when she faced bankruptcy. However, after her death in 1881, she was largely forgotten for many years. More recently, her profile has been revived and her reputation lionised, with a statue of her standing outside St Thomas's Hospital in London and her portrait - rediscovered by the author - is now on display in the National Portrait Gallery. *In Search of Mary Seacole* is the fruit of almost twenty years of research by Helen Rappaport into her story. The book reveals the truth about Seacole's personal life and her 'rivalry' with Florence Nightingale, along with much more besides. Often the reality proves to be even more remarkable and dramatic than the legend.

The Joy of Search Daniel M. Russell 2019-09-24 How to be a great online searcher, demonstrated with step-by-step searches for answers to a series of intriguing questions (for example, "Is that plant poisonous?"). We all know

how to look up something online by typing words into a search engine. We do this so often that we have made the most famous search engine a verb: we Google it—"Japan population" or "Nobel Peace Prize" or "poison ivy" or whatever we want to know. But knowing how to Google something doesn't make us search experts; there's much more we can do to access the massive collective knowledge available online. In *The Joy of Search*, Daniel Russell shows us how to be great online researchers. We don't have to be computer geeks or a scholar searching out obscure facts; we just need to know some basic methods. Russell demonstrates these methods with step-by-step searches for answers to a series of intriguing questions—from "what is the wrong side of a towel?" to "what is the most likely way you will die?" Along the way, readers will discover essential tools for effective online searches—and learn some fascinating facts and interesting stories. Russell explains how to frame search queries so they will yield information and describes the best ways to use such resources as Google Earth, Google Scholar, Wikipedia, and Wikimedia. He shows when to put search terms in double quotes, how to use the operator (*), why metadata is important, and how to triangulate information from multiple sources. By the end of this engaging journey of discovering, readers will have the definitive answer to why the best online searches involve more than typing a few words into Google.
